

GEN. W. S. PAUL IS SUCCEEDED BY DR. HANSON

It was the "changing of the guard" today at Gettysburg College as Gen. Willard S. Paul, retiring president of the school, turned over his responsibilities to Dr. Carl A. Hanson, who began his new duties this morning. Both were in a jovial mood as they met in the college president's office in Glatfelter Hall.

General Paul, whose five-year tenure at Gettysburg was marked by the most extensive construction in college history as well as strengthening of academic and faculty policies, will continue to reside at R. 6 "doing many of the things I have looked forward to for a good many years." Dr. Hanson soberly pointed out that he hoped he could continue "to deepen and extend" the influence of the college in the years ahead.

LEAVES OFFICE

In relinquishing his office General Paul said:

"I wish Dr. Carl Arnold Hanson all the best luck in this new job. I hope he gets as much happiness as I have had in the work that has given me my greatest feeling of satisfaction and sense of accomplishment of my career. I know Dr. Hanson will experience all the good fortunes of being president of Gettysburg College that the job entails. It is a splendid community in which to live and work. The expanding educational picture for the next decade at our college is exciting and challenging. I trust Dr. Hanson will enjoy the same splendid cooperation of the local citizens and the loyalty of the alumni that I have had."

ASSUMES DUTIES

As he took over his new duties, Dr. Hanson said:

"I would like to express my appreciation and congratulations to President Paul for his distinguished service to Gettysburg College. I am sure that all who have been associated with him in the community and the college join me in extending best wishes to him and Mrs. Paul on the occasion of his retirement."

"I feel it clearly a privilege to join the staff of Gettysburg College. It is an institution rich in tradition and accomplishment. Within its future, moreover, lie the opportunity and obligation to deepen and to extend its influence. To be a part of this endeavor in the years ahead is a challenge which I accept with enthusiasm."

TOURIST MARK PASSES LAST YEAR'S TOTAL

Tourist visitation today passed the 1,343,861 mark, thus establishing for this year—if not another tourist arrives—a visitation record in excess of last year's 12-month mark.

Park officials today announced 264,264 tourists had been in the National Park during August, bringing the visitation for the first eight months of the year to 1,343,813.

That figure was exactly 48 lower than the total for the 12 months of 1960 and Park Ranger John Rogers said there were at least 46 people in the National Cemetery at the time he was phoning in the report this morning, thus bringing the total at that time to equal last year's record.

MAY REACH HIGH

The visitation so far this year indicates that the tourist travel in 1961 may rival, if not surpass, the all time high set in 1938 when 1,554,234 were here, most of them in connection with the 75th anniversary of the Battle of Gettysburg and the last reunion of the Blue and Gray. To equal the 1938 mark Gettysburg will have to attract 210,421 tourists during the next four months of the year. Normally visitation declines after Labor Day, but good weather on weekends during the fall months brings out large numbers of visitors.

August's total of 264,264 visitors was 47,819 higher than the 236,445 counted in August, 1960.

AUGUST WAS VERY DRY AND A LITTLE COOL

August was very dry and a little cool, according to weather records kept at The Gettysburg Times.

Rainfall during the month totaled 2.87 inches, or 1.30 inches less than the average August precipitation of 4.17 inches. Last year the month of August was the wettest in five years with a precipitation of 6.25 inches. One of the wettest Augusts ever experienced here occurred in 1955 when 10.15 inches was recorded.

Last month was on an average, eight-tenths of a degree cooler per day than the average. The long-term mean temperature for August locally is 73.8 degrees. Last month the mean was 73 degrees.

THREE HOT DAYS

There were only three days in the month when the thermometer exceeded 90 degrees. On August 1 it reached the 90 mark, and then did not return to that level until the 29th and 30th, when it scored a 92 on each day.

The low for the month occurred August 14 when the thermometer dropped during the early morning hours to 52 degrees. Only twice during the month, on the 12th and on the 26th, were 70 degree lows recorded. Usually the low was in the 60s. On three occasions the low was in the 50s.

On five days during the month the mercury never rose above the 70s, and on 23 days the high temperature was in the 80s.

The average maximum reading during the month was 84, the average low reading was 63.

Measurable rain fell on 13 of 31 days. The largest single rainfall occurred on the morning of August 25 when 1.10 inches fell—nearly half the rainfall listed for the month.

PITTINGER IS INNOCENT ON DRIVING COUNT

Charles E. Pittinger, 59, of Hanover, was found innocent Thursday afternoon on a charge of driving while under the influence of intoxicants. At the same time the jury directed that he pay the costs.

The charge against Pittinger was placed after his car scraped against a parked vehicle while traveling on South St. in Midway, July 13.

A letter from Pittinger's physician was read stating that he suffered from a sprained ankle at the time of the accident and from a lung condition which causes shortness of breath and has brought on a heart condition.

OTHER WITNESSES

Other witnesses testified that Pittinger normally has difficulty in speaking when confronted suddenly with questioning. His employer and others testified to his being absent from work because of the sprained ankle for the three days prior to the accident.

Pittinger's attorney Samuel M. Raffenger told the jury that all symptoms which the arresting officer took to be caused by the influence of alcohol were explained by the normal physical condition of the man.

Pittinger's attorney, Samuel M. Raffenger, told the jury that supper at a tavern in Midway.

The jury hearing the case included Albert Duncan, Hanover R. 5; Edward Beard, Gettysburg; Clyde Orner, Biglerville R. D.; Richard Crone, Gettysburg R. 3; Carl R. Knox, Gettysburg; George Liversberger, McSherrytown; Clair Gardner, York Springs; Lawrence Plank, Idaville; George S. Deatrick, Gettysburg R. FAIR CONTEST NEEDS TALENT CLUB LEARNS

The Adams County Senior Extension Club, meeting Thursday evening at Bendersville, learned that there are still openings for amateur talent aged 16 or over in the entertainment program at the South Mountain Fair.

J. Glenn Miller, chairman of the Senior Extension committee arranging the entertainment, said that there are sufficient acts entered in the amateur contest to be held for participants 15 years of age or younger on Tuesday evening at the fair. He added, however, that some additional "acts" could be used for the amateur contest Wednesday night for participants 16 years of age or older. Persons wishing to enter the competition for prizes totaling \$75 were asked to contact Miller at the ASC office here.

SATURDAY EVENT

On Saturday, September 9, the last night of the fair, the entertainment will include a competition between the winners of the amateur contests Tuesday and Wednesday nights and demonstrations of square and folk dances by the Senior Extension dancers.

The club voted to provide \$40 for spending money for a Uruguay, South America, international fair youth exchange delegate who will be in Adams County the

76 Persons Perish In Flaming Wreckage Of TWA Constellation After It Explodes, Crashes And Burns In Chicago Cornfield

CHICAGO (AP) — A TWA Constellation exploded, crashed and burned in a cornfield near suburban Hinsdale early today, killing 76 persons, and hours later the FBI investigated the possibility that a bomb may have caused the crash.

"We have men on the scene investigating the possibility that a federal law may have been violated," said a spokesman for the FBI in Washington. "Some of those who saw the crash say there was an explosion."

The giant airliner, carrying 71 passengers and a crew of 5, exploded minutes after taking off from Midway Airport at 2 a.m. EST. It plowed into a cornfield and burned. All 76 aboard perished in the flaming wreckage.

From 2:30 to 3:30 p.m. all teachers will report to their respective buildings and rooms to prepare for meeting pupils and opening school on Wednesday.

A MESSAGE TO PARENTS

Did your youngster have a job this summer? Often the first job is a turning point, reads a statement from the U. S. Office of Education. But don't let it turn him away from school. Use it to help him do better in school.

The new job may spark new interests in your child. Look for them. Talk to the teacher or the school counselor about them. Help the school to find out what your child's interests and strong points are.

Your child deserves the best, and that's what the school tries to give. Nowadays it takes more than work to get ahead. It takes education. Every kind of job is becoming technical. We need skills, not just muscles.

The job of the school is to get our children ready for a good life and a decent job. Let's work together for your child's future.

COURT HEARS WITNESSES IN TULLY TRIAL

Trial of James P. Tully, 25, 351 E. King St., on a charge of involuntary manslaughter, was being conducted in Adams County court today, the next to last trial scheduled for the current term of court. Tuesday a jury is to hear the final case, an involuntary manslaughter charge against Richard J. Hockensmith, 207 W. High St., New Oxford. State Policeman Gerald Kruba is prosecutor in both cases.

On the witness stand this morning Officer Kruba told of being called to the scene of an accident on the Fairfield-Orrtanna Rd., 1.3 mile north of Fairfield, early on the morning of Sunday, May 28. He found an automobile being driven south had gone off the highway and overturned. A passenger in the car, Frederick W. "Billy" Renner Jr., Fairfield R. 1, a sailor at home on leave, had apparently been thrown from the car and fatally injured. Tully, owner and driver of the car, was pinned by his ankle under the overturned auto. Bruce Elmer Fitz, II, Littlestown, a passenger in the car and a nephew of Tully, was also injured.

Officer Kruba said the three occupants of the car were removed to the Warner Hospital by ambulance. He said his further investigation showed the men had been enroute to Renner's home at the time of the accident after having visited the Hillside Tavern, Battlefield Tavern, West Gettysburg Inn and Rock Top Inn during the course of the evening preceding the accident.

ROAD MARKS

The officer said marks on the roadway showed Tully's car had been off the left side of the road for 60 feet, crossed the road and traveled 80 feet more before hitting an abutment, then went on 196 feet before it stopped on its top.

Dr. Gerald Doo, hospital surgeon, told of treating the injuries of Tully and his nephew and the injuries which led to the death of Renner.

The jury hearing the Tully case includes Leroy Smith, Hanover R. 4; John Flesham, New Oxford; Jean McCrorie, Gettysburg; Gilbert McMaster, McSherrytown; Ada Tuckey, Gettysburg; (Continued On Page 2)

BUPP BRINGS CLAIMS ACTION

Paul Bupp, Gardner R. 2, has brought an action in trespass in Adams County court against Donna Showers Shreve, Biglerville R. 1, and Grayson Showers, Orrtanna R. 1, as a result of an auto accident near Bendersville last March in which two persons were fatally injured.

Bupp brings the suit individually, as administrator of the estate of his late wife, Patricia Bupp, and as guardian for their three children, Sharon, Kimberly and Barry Bupp.

Ten counts are included in the complaint filed by Bupp by Attorney Oscar Spicer, five against Donna Showers Shreve as driver of the one car involved in the accident, and five other counts, all alleging the same facts as those in the counts against Mrs. Shreve and against Grayson Showers as owner of the car she was driving.

Bupp asks \$1,100 as damages to his car which was being driven at the time of the accident by his wife. As executor of the estate of his wife who was fatally injured in the accident, he asks hospital and funeral expenses and "in excess of \$5,000" for her pain and suffering. Similar claims in "excess of \$5,000" are asked for each of the Bupp children who were hurt in the accident in which their mother was killed.

World Briefs

TAIPEI, Formosa (AP)—The Young Marshal, Chang Hsueh-liang, who kidnapped President Chiang Kai-shek in 1936 and held him prisoner for 12 days, has been freed from 24 years of relentless surveillance.

The Formosa garrison command today confirmed long-standing rumors the Young Marshal, now 62 and gray, had been given his freedom.

The former warlord, who in his heyday ruled Manchuria and north China, now lives at Peitou, a hot springs resort eight miles from Taipei.

BELGRADE, Yugoslavia (AP)—Countries attending the conference of nonaligned nations have received a total of \$5.75 billion in U.S. aid.

Most of it has gone to the two countries expected to play leading roles in the conference—India and Yugoslavia.

India has received \$1.7 billion from the United States in economic aid, Yugoslavia has had \$1.3 billion in economic assistance and \$719 million in military aid. Yugoslavia declined to receive further military aid after 1957.

MANDAL, Norway (AP)—Fifteen minutes after the new Norwegian motorship Beta set out on her maiden voyage Thursday, Skipper Ivar Janssen called for full speed to show a Danish vessel how easily the 460-ton vessel handled.

Full speed and a sharp turn were too much for the Beta, though. In 30 seconds she heeled far over, throwing the 15 Norwegians and 12 Danes aboard into the sea and stopping the ship's engines.

Two German torpedo boats and other small boats cruising in the sunny fiord rescue the Beta's personnel. The ship, still listing sharply, was towed back to the shipyard.

TOKYO (AP)—The Japanese government said today it would protest to Moscow that Soviet resumption of nuclear testing will shower the Japanese people "with the fallout from the 'ashes of death.'"

Weddings

Shenk—Miller
Miss Rosemary E. Miller, daughter of Mr. and Mrs. Lester J. Miller, Phoenix, Ariz., became the bride recently of A. Martin Shenk, son of Mr. and Mrs. Coffman Shenk, Biglerville R. 1, at the Sunnyslope Mennonite Church, Phoenix. Rev. Melvin Ruth, the bride's pastor, and Rev. Stanley Shenk, brother of the groom, officiated at the ceremony. Music was furnished by a mixed quartet, and by Mrs. Miriam Muselman Esh, formerly of Gettysburg R. 3, as soloist.

The maid of honor was Miss Margaret L. Miller, and the bridesmaid was Miss Corinne A. Miller, both sisters of the bride. The bride's cousin, Rollin Miller, was the best man.

After the ceremony a reception was held at the home of the bride's parents. The couple left on a wedding trip to the west coast. They will be at home at Biglerville R. 1 after September 9.

Footes—Emlet
Miss Barbara Ann Emlet, daughter of Mr. and Mrs. Victor J. Emlet Sr., Carlisle R. 6, and Marvin Alvin Footes, son of Mr. and Mrs. Rev. Footes, Carlisle, were married recently in the Assembly Church of God, Dillsburg, with Rev. Frederick Bennett Sr. performing the double-ring ceremony.

Mr. and Mrs. Mervin Negley, Chambersburg, sang, and piano music was played by Mrs. Victoria Eshelman, Chambersburg.

Miss Linda Jean Emlet, Carlisle R. 6, sister of the bride, was maid of honor.

The flower girl was Linda Ocker, niece of the bridegroom.

The best man was John Donson, Carlisle, and the ushers were Roger and Victor Emlet, brothers of the bride, both of R. 6.

Following the wedding, a reception was held at the Dillsburg Fire Hall. The newlyweds left for a trip to Williamsburg, Va., following the reception.

The bride, a graduate of York Springs High School, is employed at McCoy Electronics, Mt. Holly Springs.

The bridegroom, a graduate of the Carlisle High School, is also employed at McCoy Electronics.

government said today it would protest to Moscow that Soviet resumption of nuclear testing will shower the Japanese people "with the fallout from the 'ashes of death.'"

The opposition Socialist party also addressed a protest to Premier Khrushchev through the Russian Embassy here. It warned him that the Soviet Union will lose its "glorious prestige" if he goes through with the tests.

CLOSE BERLIN AIR CORRIDOR TO 2 NATIONS

BONN, Germany (AP)—The Western Allies have barred the Dutch and Belgian airlines from using the Berlin air corridors for special flights to the Leipzig Trade Fair in East Germany.

Although a British Embassy spokesman said the ban was in retaliation for the Communist closure of the West Berlin border, another Allied source called it a "necessary decision" to show Moscow that the air corridors are in fact reserved for the U.S., British and French Allies in Berlin and "are not to be challenged."

The flights to Leipzig had been scheduled to start today and run until Sept. 10. The two airlines, Dutch KLM and Belgian Sabena, would have used the corridors about halfway, then turned south to Leipzig.

Western businessmen have been asked not to attend the fair but nothing has been done by Western governments to prevent them. The rail and road traffic to East Germany has not been prohibited.

SOVIET PAPER ISSUES THREAT ON SUPERBOMB

By REINHOLD G. ENSZ

MOSCOW (AP)—The superbomb the Soviets say they want to test would destroy people even in "superdeep" shelters, the military newspaper Red Star declared today.

"In our country," said Red Star, "projects are being worked out for creating a series of high power nuclear bombs which equal 20, 30, 50 and 100 million tons of TNT."

"Bosses of aggressive North Atlantic Treaty Organization policy countries should clearly understand that no superdeep shelter can save them from the all-shattering blow of such a weapon if their insane actions compel its employment."

The article reiterated the Soviet government's contention that the rockets which took cosmonauts Yuri Gagarin and Gherman Titov into orbits in space are also capable of delivering nuclear warheads of "increased power to any spot on earth."

NEAR IMPACT POINTS
Red Star said in tests in the Pacific last year Soviet rockets came within just over a mile of predetermined impact points.

"This means," said Red Star, "that our rocket nuclear blows insure destruction of any target without need for ranging shots."

The Communist party paper Pravda, in a long editorial on the Soviet decision to resume nuclear tests, declared: "If, in connection with the signing of a German peace treaty, the imperialists try to drag us into the abyss of war, the Soviet people are full of resolve to make an end once and for all of the forces which give birth to aggression."

WILL SURVEY BIG BUILDINGS

BALTIMORE, Md. (AP)—A survey of major buildings in all 50 states—the first step in a government program designed to provide fallout protection for 50 million persons—will get under way next month, officials announced Thursday.

Completion of the survey, for which \$93 million has been appropriated, is expected by Dec. 31, 1962.

Representatives of the Defense Department outlined the vast program during a joint meeting here of Army Engineers from the Baltimore area and Civil Defense officials from seven states.

The survey of buildings will be limited to those structures capable of accommodating more than 50 persons. Some of them probably won't need modifications and will be marked with signs visible to the public.

24 NATIONS SEEK PEACE AT BELGRADE

By EUGENE LEVIN

BELGRADE, Yugoslavia (AP)—Twenty-four nations sitting on the cold war fence convene their own summit meeting today to try to show the big powers the way to world peace.

Ten presidents, one emperor, two kings, six prime ministers, three foreign ministers and two princes assembled in this ancient Balkan capital for the uncommitted nations' biggest gathering since nonalignment became a factor in world affairs.

The leaders had expected to discuss such problems as colonialism, racial discrimination, disarmament, U.N. reform, Berlin, Bizerte, economic and technical cooperation. But two topics far outweighed the rest—the Berlin crisis and the Soviet Union's decision to resume nuclear testing. Both clouded the atmosphere in this flag-draped city.

MAY ASK CURBS

Some officials suggested that the Moscow announcement on nuclear tests might force the conference to take sides in the cold war "against our will." There was speculation the conference would sound a new call for nuclear arms curbs, but one Western diplomat in Moscow speculated the nonaligned nations might be frightened into pleading for peace negotiations no matter what the outcome.

The delegates generally were shocked, dismayed or angered by the Soviet announcement on the eve of the conference. Borba, the Yugoslav Communist party newspaper, said the Kremlin's decision could have a "disastrous echo."

Against the background of rising Soviet-Western tension, the delegates still hoped their collective voice might be heard. They claimed to speak for three-quarters of a billion people living in countries with about a quarter of the votes in the U.N. General Assembly.

EXPECT FIREWORKS

There are bound to be fireworks. Although all profess to be nonaligned, some lean more toward the Soviets and some more toward the West.

Leaders like President Makarios of Cyprus and Premier Saeb Sajem of Lebanon are expected to take much more moderate stands than Presidents Kwame Nkrumah of Ghana and Osvaldo Dorticos of Cuba.

The basic requirement for admission to the conference was a national policy of nonalignment in the sense of not belonging to

U.N. RELATIONS WITH KATANGA ARE SEVERED

By JOHN LATZ

ELISABETHVILLE, Katanga, the Congo (AP)—The United Nations announced today it is breaking all relations with the Katanga government.

The U.N. representative, Conor Cruise O'Brien, said in a letter to President Moise Tshombe "the United Nations cannot maintain relations with a government which included a minister against whom the most serious charges are pending."

MINISTER CITED

The United Nations Thursday asked Tshombe to fire Godefroid Munongo, minister of the interior, on the grounds he was under "grave suspicion" of plotting the murder of U.N. personnel and atrocities against Baluba tribesmen. Munongo denied the charges and won the president's support.

The charges came from Andre Cremer, a Belgian, who said he had served in Katanga's gendarmerie and had been given a special mission to kill Michel Tombelaine, the deputy U.N. chief here. Munongo countered that Cremer was a known criminal wanted on theft and forgery charges.

Resistance to U.N. operations has stiffened here in recent days as it became more and more apparent the world body was striving to bring this secessionist province back under the wing of the central government in Leopoldville.

Lions To Sponsor Carnegie Course

The Gettysburg Lions Club will sponsor a Dale Carnegie Course in Gettysburg. President David Blosser announced today. The first meeting will be a free demonstration session at the American Legion home Wednesday at 7:27 p.m.

Blosser said service clubs in other areas report that the classes have had an "important influence on human relations in their communities."

The purpose of the demonstration class is to acquaint visitors with the Carnegie methods "used in effective speaking, human relations and leadership training." One of the features will be a demonstration of one of the memory-training techniques developed for the course.

STATE USING RADAR TO HELP STOP MISHAPS

By THE ASSOCIATED PRESS

State police in Pennsylvania today put into effect the use of radar on highways and the Pennsylvania Turnpike as a legal means of prosecuting speeders.

At 12:01 a.m. today, radar became a legal means of prosecuting speeders in Pennsylvania. The appearance of radar-equipped patrol cars caps a long, hard struggle for legalized radar, pushed first by former Gov. George M. Leader and later by his successor, Gov. Lawrence. It was signed into law by Lawrence in May.

Small, spotlight-sized electronic radar units were passed out Thursday to state police troops at Philadelphia, Greensburg, Scranton, Harrisburg, Erie and Bethlehem. Two sets went to the Pennsylvania Turnpike troop.

OTHERS GET UNITS

Other units were to be distributed today to troops at Butler, Pottsville, Washington, Hollidaysburg, Montoursville, Hazleton, Wyoming, Reading and Lancaster.

Police radar teams will operate only during the daylight hours for the first two weeks. After that they will patrol the highways day and night with teams being shifted to various locations to provide maximum coverage.

Warning signs reading "radar speed check" were posted on all roads where radar was in force to warn motorists to avoid a heavy foot on the gas pedal. Under the present law, only state police can use radar and only on the turnpike and other state roads.

"OBEY SPEED LAWS"

To Col. Frank G. McCartney, state police commissioner, radar is aimed at influencing "some drivers to obey speed laws that they might otherwise ignore." "State police will be equipped with radar not to make more arrests but to prevent violations which cause tragic accidents," he said Thursday.

Gov. Lawrence termed it "a silent sentinel, reminding each of us that death plays no favorites." He said the main purpose of radar is to save lives.

Each team was made up of two cars. One car was spotted along the side of the highway, equipped with the electronic radar device. Ahead of the radar car was another state police vehicle with two troopers serving as interceptors. Once a motorist is clocked exceeding the posted speed limit by five or more miles per hour by the radar car, the interceptors will be alerted to move in.

TOURIST MARK

(Continued From Page 1)

The park visitation figures are based partially on an automatic counter across Hancock Ave., the number of guided tours, actual counts in the cemetery and use of a formula based on percentages obtained from time to time when actual counts are compared to the estimates made from such items as the number of guided trips and the count shown on the automatic counter.

The month by month totals this year are: January, 13,160; February, 17,765; March, 81,832; April, 176,122; May, 225,713; June, 249,940; July, 294,997; and August, 284,264.

During the same months in 1960 the figures were: January, 19,296; February, 15,958; March, 22,670; April, 135,664; May, 148,309; June, 176,062; July, 293,514; August, 236,445.

QUAKE READING STIRS UP RED TEST THREATS

By THE ASSOCIATED PRESS

Seismograph readings Thursday touched off speculation that the Soviet Union had already carried out its threat to resume nuclear weapon tests. But most scientists agreed that their instruments had actually registered an earthquake near Peru.

The shocks were registered about 9 p.m. Wednesday. Prof. Max Bieder of Basel University's astronomical institute in Switzerland, and Dr. Raffaele Bendandi of the geophysical observatory in Faenza, Italy, placed the shocks somewhere in China's Gobi Desert.

Bieder said the shocks were unusual in that the second was stronger than the first and the center was relatively near the surface. Bendandi said they could have been caused by a subterranean explosion. Exploding nuclear bombs underground decreases radioactive fallout.

OTHER SHOCKS

The shocks were also registered at about the same time on seismographs at Columbia University, California Institute of Technology, the Japan Meteorological Agency, the Riverview College Observatory in Australia and Sweden's Uppsala University.

None of these plotted the shock as having occurred in Asia, and most put it near Peru. A spokesman at Riverview said the earthquakes were about 125 miles below the surface of the earth and not likely to cause any damage.

Prof. Bieder said later it was possible his instruments gave a faulty reading.

latter part of September and first part of October. The young woman from South America will stay at the home of Mr. and Mrs. Robert Lott, Aspers R. D., and Mr. and Mrs. Howard Wright, Gettysburg R. D.

Shirley Kessel reported that the club had won third place with an exhibit at the Adams County Fair.

CHICKEN BARBECUE

Further plans were made for a chicken barbecue to be held September 23 at Bendersville. Tickets are obtainable through Ruth Bretzman or any member of the club. Deadline for sale of tickets was set as September 18.

Carl Kessel, president of the club, asked that donations for the barbecue be taken to the Bendersville community hall by 1 o'clock on the afternoon of September 23.

Plans were announced for attendance at a Senior Extension conference October 13 at the King St. EUB Church, Chambersburg, at which Dr. William Smith of Pennsylvania State University will be the speaker. The conference is for Senior Extension groups in Adams, Cumberland, Franklin and Perry Counties.

President Kessel announced the Perry County Senior Extension Club has invited the Adams County group to take part in an outdoor square dance September 15 at the Perry Joint School, New Bloomfield.

The county Senior Extension group voted to take charge of the dining room September 16 for the Adams County Home Auxiliary supper at Cashtown.

from Chicago to Los Angeles. The plane, leaving Midway, normally would fly west. The crash scene is about 12 miles directly west of Midway Airport and about 1½ miles southwest of Hinsdale, a western suburb of some 15,000 people 20 miles west of downtown Chicago.

JUST MISSED HOMES

William Payne, 42, a plastics worker in a plant in nearby Downers Grove, said he heard the crash and drove to the scene. "The plane just missed the five homes in the area," Payne said. "It came within about 150 feet of one of the homes."

Ambulances from scores of suburbs rushed to the scene. But no bodies were taken from the plane or the field. Hundreds of persons drove to the field.

Mrs. William Kouche, whose home is about 150 feet from the wrecked plane, said "it was a roar, louder than a wind storm and it went right over our heads. Then there was a crash and a muffled boom. When I looked out the window, all I could see was fire."

"BALL OF FLAMES"

Dan Heidenreich, who lives about three blocks from the scene of the crash, said: "I saw a big ball of flames and right away started dressing. When I got to the crash sight, all I could see was a big fire and blackened bodies. They were all over."

A TWA Lockheed Super-Constellation was involved in aviation's worst disaster last Dec. 16 when it and a United Air Lines DC8 jet collided over New York City, killing 134 persons.

A TWA Super-Constellation and a United Air Lines DC7 collided on June 30, 1956, over Arizona's Grand Canyon, killing 128 persons in the second worst commercial plane accident.

By THE ASSOCIATED PRESS

Millions of persons got ready today for the last long holiday weekend of the summer season.

The heaviest motor travel in the nation's history was indicated by safety experts over the three-day Labor Day holiday.

An estimated 74 million cars are ready to roll as motorists prepared to head for vacation and recreation spots, for family outings, to cities and to rural areas.

But a grim warning already has been made by the National Safety Council to the millions of motorists who will be on the road: 420 persons may be killed during the 78-hour holiday period from 6 p.m. today to midnight Monday (local time).

8 BILLION MILES

The council estimated that nearly 8 billion miles of highway travel will be logged—averaging more than 105 million miles an hour during the holiday period.

The council also estimated that traffic accidents may injure some 17,000 persons.

Trains, planes and busses will add to the huge traveling load. Resorts across the country were reported ready for their biggest weekend of the summer.

Law enforcement officials arranged special details to handle traffic and hold the number of highway fatalities to a minimum. In Illinois, Gov. Otto Kerner has urged all motorists to keep headlights burning at all times and to hold speeds to at least five miles below posted limits.

HIGHEST TOLL FORECAST

The council's estimate of 420 traffic deaths is higher than the traffic toll counted by The Associated Press in a 78-hour non-holiday weekend survey made between 6 p.m. Friday Aug. 18 and midnight Monday, Aug. 21.

During the four-day Independence Day holiday weekend this summer, 509 persons were killed in traffic accidents, 59 above the council's pre-holiday estimate.

In last year's three-day Labor Day holiday, 415 persons were killed in traffic accidents. Other violent deaths included 83 drownings, 28 in boating accidents and 90 in miscellaneous type mishaps for a total of 616.

GRANTED DIVORCE

Leslie R. Bricker, 41, of Richmond Furnace, has been given a divorce from Minnie C. Bricker, 35, of New Oxford R. 1, in Franklin County Court, Chambersburg. The husband claimed his wife deserted him in August of 1958. They were married Oct. 20, 1945, in Chambersburg.

Japanese May Sign Official
Surrender On Missouri Tonight:
Yokohama; American troops ex-
tended their steel grip today along
both sides of Tokyo bay, the stage
on which will be played out to-
morrow the greatest military
pageant of the century—the final
and formal surrender of the
Japanese empire.

Last of the actors to take their
places were the Eighth Army men
of Lt. Gen. Robert L. Eichel-
berger, scheduled to begin their
mass landings in the bay sector
by nightfall tonight. A radio re-
port said the landings already had
begun.

Gaunt Lt. Gen. Jonathan Wain-
wright and his staff who survived
the forceful surrender of the Phil-
ippines and the evil years be-
hind enemy wire arrived to wit-
ness the Japanese surrender sig-
natures tomorrow (Saturday night,
U.S. time) aboard the battleship
Missouri.

Expect Influx Of Travelers Over
Week-end: Gettysburg is geared
to enjoy its largest tourist week-
end since the outbreak of the war
late in 1941, with motorists roll-
ing into town as early as Friday
morning and continuing the influx
today.

Anticipating a capacity Labor
Day week-end, Dr. J. Walter Cole-
man, superintendent of the bat-
tlefield, announced today that the
two official entrance stations, on
the Lincoln highway west and the
Emmitsburg road, will be opened
for the first time since the fall of
1942.

"Good" business was enjoyed
by the town's hotels and tourists'
homes Friday night, a survey to-
day revealed and crowded condi-
tions were anticipated for the hol-
iday week-end.

27 Counties Commended By
War Captain: The former captain
of the 553rd Military Police Escort
Guard Company, the unit which
included a higher percentage of
Adams county men than any other
outfit serving abroad, has ad-
dressed a letter to the members
of his organization praising them
as being "as fine a body of men
who ever wore Uncle Sam's uni-
form anywhere, any time." The
letters were addressed to the men
through their parents.

The captain, now at his home
at San Rafael, Calif., in his let-
ter traces the services of the com-
pany from the time it landed, on
the shores of France on D-Day
plus 2 until the surrender in Ger-
many. The letter discloses four
of the men were killed and that two
squads of the company served at
the famous Remagen bridge-
head across the Rhine.

Brig. General John M. Weik-
ert, of McKnightstown, command-
ing general of the 7th Fighter
Wing, has been awarded the
Bronze Star Medal for meritorious
service in connection with mili-
tary operations against the enemy
from July 1, 1944, to May 11,
1945.

General Weikert's wife, Mary,
resides at 3603 R. Street, North-
west, Washington, D. C. His Fa-
ther, William P. Weikert, resides
at McKnightstown.

General Weikert is a graduate
of Gettysburg high school, attend-
ed Gettysburg college and gradu-
ated from the United States mili-
tary Academy, West Point, N. Y.
He later became a mathematics
instructor at West Point.

Council Will Select Parking
Meter Sept. 4: At a special meet-
ing Friday evening borough coun-
cil opened bids from four parking
meter concerns offering single or
multiple coin parking regulators at
from \$58 to \$75 each. In all in-
stances the cost would not in-
volve any outlay for the borough
for out of receipts of the operation
of the machines, it was announced.
Council met next Tuesday eve-
ning at 8 o'clock, the time for the
regular September meeting of
council, as the time at which they
will decide upon the awarding
of the contract for the installation
of the meters.

Today's Talk

FULFILMENT

Most of the things we set our
hearts on at the start turn
out vastly different than we ex-
pect.

But, in most cases, vastly
better.

After all, fulfillment of our fond-
est dreams and plans is that we
may measure up to what finally
comes to us as a part of our re-
ward for service unselfishly ren-
dered.

It is well that you set out for a
definite goal, but do not put your
heart so thoroughly to it that you
couldn't change without being too
disappointed. Very often the new
road is better than the one you
planned to take.

Fulfillment is development.
He who sets out to get all that
his ability will allow will go fur-
ther than he thinks.

But this adventurous journey
must be borne courageously, and
we must be fit and ready for the
emergencies when they arise.
That is the reason why all that
we do should be done thoroughly
and with the interests of many
others in mind as we strive for
the goal where we hope to arrive.

For if we arrive single-handed
and alone all life's task will have
been in vain.
The glow of success is tinted
with the smile of failures all
along the way.

At no time is it well to play for
the present. The present is but a
link in the chain of richness
which the coming days hold out
for us all.

Nothing is final. Our lives are
wrapped in coverings woven by
the hands of the great God.

Trouble not. Fret not.
You are an important factor in
the great fulfillment of the world!

Limit"

OPTIMISM

I met upon the street one day
A legless man. Now what
thought I

Has life for him, without a limb?

Methinks he would much
rather die;

And so I said to him: "My friend,
How dreary life to you must
be."

His sentence terse: "It might be
worse."

I have my eyes and still can
see."

And then a blind man I beheld.

"Now here," said I, "is one
I'm sure,

No joy is left; from sight bereft,
Life must be hateful
to endure."

I spoke to him, and he replied:

"Tis not on sight that joy
depends;

My sightless eyes do not despise.
They bind me closer to my
friends."

Oh, cowards, we, in health and
strength,

Wailing aloud our deep
despair!

A lesson each, these two men
teach,

A lesson that we all should
share.

Are all our troubles half so great
As crippled bodies, eyes stone
blind?

If they are glad, and we are sad,
God grant to me a cripple's
mind.

TIGERS FACE NEW YORK IN CRUCIAL TEST

By ED WILKS

The second place Detroit Tigers open a three-game showdown against first place New York tonight at Yankee Stadium after closing within 1½ games of the American League leaders with an 8-2 victory over the Chicago White Sox Thursday.

Minnesota beat the Yankees 5-4 despite Mickey Mantle's 48th home run. The Mick's shot put him within three of teammate Roger Maris and left him one ahead of Babe Ruth's record-60 paces in 1927. It was one of three homers by the Yankees, who belated their AL record with 195 for the season.

Cleveland sent Washington to a 13th straight defeat, 2-1, and Kansas City took two from Los Angeles, 17-3 and 6-5. Boston and Baltimore were idle.

TWINS BEAT YANK

The Twins finished their season series with New York with their fourth victory in the 18 games and they did it with a five-run third inning. Rookie Roland Sheldon (9-4) was the loser, but it was reliever Jim Coates who gave up the deciding hit, a two-run homer by Jim Lemon. Southpaw Jack Kralick (12-9), won it. Bill Skowron and Hector Lopez socked other Yank homers, bettering by two the AL record of 193 set by New York last season.

Billy Bruton and Norm Cash, the AL's batting leader (.365) who had missed a game because of illness, cracked two-run homers as the Tigers ended Chicago's winning streak at six. It was the 11th victory in 14 games for the Tigers, who scored the winning run off Frank Baumann (9-11) in the second on a single by Mike Roark, a sacrifice by winning right-hander Paul Foytack (10-8) and a double by Jake Wood.

Willie Kirkland's double won it in the third inning for the Indians, who counted their first two runs in the second on Woodie Held's homer off loser Bennie Daniels (8-9). Jim (Mudcat) Grant (13-8) was the winner.

The A's took the opener behind Jerry Walker (6-11) with 19 hits, four of them homers and one a grand slam by Wayne Causey off loser Ken McBride (11-11) and two relievers. They won the second in the ninth with pinchhitter Joe Nuxhall sending the tying run home with a double and Causey the deciding tally with a single.

Eastern League

By THE ASSOCIATED PRESS

The Williamsport Grays, dethroned as Eastern League champions by the Springfield Giants, can clinch at least a tie for second-place tonight by defeating Johnstown.

Or should third-place Binghamton lose at Springfield, this also would assure the Grays of a tie. And if Williamsport wins and Binghamton loses, the Grays clinch the runner-up spot.

The Grays maintained their 3½ game lead over the Trips Thursday night by defeating Johnstown 16-10. Binghamton defeated Springfield 11-2. Reading moved into a fifth-place tie with Lancaster by drubbing the Red Sox 13-7.

SETS NEW RECORD
YONKERS, N.Y. (AP) — The World racing record for 1½ miles on a half-mile track was down to 2:31 1/5 today and belongs to O'Brien Hanover.

The 6-year-old sidwheeler, owned by Hugh Grant of Bradford, Pa., clipped two-fifths of a second off the mark held by Good Time and Bye Bye Byrd in winning the \$25,000 Anzac Pace at Yonkers Raceway Thursday night.

LEGISLATURE SEEKS TO END SESSION TODAY

HARRISBURG (AP)—The 1961 legislature pressed toward final adjournment today, wrapping up the odds and ends of eight months of lawmaking.

Little remained of the major issues that faced House and Senate during its long tenure. The chambers pushed to close the record on 936 Senate bills and 1,853 House bills introduced during the session.

On a supertime vote Thursday night the Senate downed the last revenue proposal facing them—and the last major issue. By a 25-24 tally—on strict party lines—the chamber defeated a proposed \$23 million tax aimed at financing education improvements during the upcoming school year. Democrats backed it; Republicans opposed it.

REMAINED AFTER MIDNIGHT

The last-ditch drive to clean up the legislative docket piled hour on hour of debate, last-minute maneuver, caucus discussions, committee meetings and amendments. The Senate had gone into session Thursday at noon; the House at 11 a.m., EDT.

Both remained in session, except for short recesses, past midnight and on into the final day of the General Assembly.

The tax bill would have imposed a 2 per cent levy on dividends, capital gains and royalties. Defeat of the bill also eliminated a batch of proposals directly linked to it.

The final vote was the second in 24 hours on the plan. It had been revived on a parliamentary maneuver in hopes by its backers that an all-out telegram campaign could chip away at least one GOP vote to help put the tax plan across.

DROPPED SCHOOL BILLS

Democrats immediately began dropping from the calendar House approved bills that would have spent the \$23 million.

They included \$18.6 million to boost school subsidies from \$5,800 to \$6,200 per teaching unit and \$620,000 for faculty increases at state colleges.

A \$400,000 bill for establishment of community colleges was kept alive. The Lawrence administration was reported ready to make adjustments elsewhere in the budget to support this program.

The defeat doomed any possibility of raising more money for schools until the 1962 session convening in January, because of adjournment.

HOUSING LAW TAKES EFFECT

HARRISBURG (AP) — Pennsylvania's first fair housing law went into effect today, banning discrimination because of race, religion or national origin in the selling and renting of living quarters.

The law is another step in the state's drive to eliminate discrimination in the Commonwealth.

MUST POST NOTICES

The Pennsylvania Human Relations Commission will administer the new law.

Commission regulations call for real estate brokers and builders to post fair housing notices in their offices or in sample homes and apartments.

Another law aimed at the discrimination issue will become effective Sept. 15. This measure will forbid discrimination by schools in the admission of students. Colleges operated by religious denominations will be exempt from that law.

The San Francisco Giants have boasted the National League's earned run champion the last four years. It was Sam Jones in '58, Stu Miller in '59 and Mike McCormick last year.

COLLEGE GRID DRILLS BEGIN IN EARNEST

By JACK CLARY

The nation's college football teams, almost oblivious to how the Labor Day weekend will be spent elsewhere, buckle down to two-day drills today in preparation for the season which begins in earnest three weeks from now.

A number of new coaches are set to roll out their own teams for the first time, from Iowa's Jerry Burns, given the best chance to lead the 1961 national champions, to Virginia's Bill Ellis, who inherits college football's longest losing string of 28 games.

Along with Iowa are Kansas, Louisiana State, UCLA, Penn State, all picked as the teams to be the national title.

19 LETTERMEN

Burns welcomed 19 lettermen, including eight starters from last year's Big Ten co-champions as he took over for the retired Forest Evashevski.

Minnesota, the defending national champion who shared the 1960 Big Ten title with the Hawkeyes, lost five lettermen, including All-America guard Tom Brown, and is not expected to be the threat this year.

Kansas Coach Jack Mitchell is faced with the loss of halfback Bert Coan, who broke a leg in spring practice, but is more than consoled with all-around quarterback John Hadl, halfback Curtis McClinton, and a large, mobile line that makes the Jayhawks the team to beat in the Big Eight.

LSU IS LOADED

Louisiana State, whose iron-clad defense led the nation in being least scored upon, is loaded with juniors and will give defending Southwestern Conference champion Mississippi a battle for the top spot.

Penn State with 15 lettermen back, tops the East's independent. Quarterback Roman Gabriel led North Carolina State's contingent of 17 lettermen picked to oust defending champion Duke in the Atlantic Coast Conference.

RICE PICKED

Rice has 22 lettermen back and is picked to take the Southwest Conference crown from defender Arkansas, which has been hurt defensively.

UCLA, with tailback Bob Smith ready to step in for the graduated Bill Kilmer, also is show off 24 veterans as it battles for the Big Five title.

Ohio State, still strong in the Big Ten with fullback Bob Ferguson and guard Mike Ingram heading 26 lettermen, begins practice sessions Monday.

2 Head Coaches At Stroudsburg Resign

EAST STROUDSBURG, Pa. (AP) — Dr. Richard Luce, head basketball coach, and Dr. James Reed, wrestling coach, today resigned their coaching posts at East Stroudsburg State College.

Both men will remain at the school as faculty members, however. They said they resigned because they wanted to spend more time in instructional work.

Named to replace Luce was Dr. Charles Wolbers, basketball coach and athletic director at Newpaltz, N. Y., State College.

Clyde Whitman of Cheltingham, Pa., high school was appointed wrestling coach.

Plane Hijacker Sent To Hospital For Test

EL PASO, Tex. (AP) — Leon Bearden, 33, accused jetliner hijacker, will be confined to William Beaumont General Hospital here next week for a psychiatric examination requiring from 20 to 30 days.

U.S. Dist. Judge R. E. Thomas on Thursday signed commitment papers for the examination.

Bearden will be examined by government doctors at William Beaumont. After examination and observation there, he will undergo examination by civilian specialists for defense attorneys.

Bearden and his son, Cody, 16, are being held under \$100,000 bond each on charges after hijacking a Continental Airlines 707 jet on Aug. 3.

Divers Drag Dam For Drowned Boys

SHIPPENSBURG, Pa. (AP) — Skin divers planned to resume dragging the waters of a nearby dam today for the body of the second teen-ager who drowned when two makeshift boats sank.

The divers searched the dam all day Thursday, but were unable to find the body of Robert L. Rebeck Jr., 16, of Shippensburg.

They did, however, recover the body of Miles Devor Jr., 19, also of Shippensburg, late Thursday night in about 35 feet of water 50 feet from shore.

The two youths were members of a party of five who went to the mile-wide dam near the Army's Letterkenny Ordnance Depot Wednesday night and attempted to make a crossing on two improvised boats. The other three youths managed to swim to safety.

S. P. Playoffs Resume Sunday

Fairfield and the Old Mill Field at New Oxford will be the sites for Sunday's games in the post-season playoffs in the South Penn Baseball League. Both games will start at 2 p.m.

Fairfield, 9-1 winner over Arendtsville last Sunday, will be host to the regular season champions, while Hunterstown, a 12-1 victim last Sunday, will meet Littlestown at New Oxford.

Both series are best-of-three affairs. Winners of the semi-final series will clash in another best-of-three set for the playoff championship.

CHURCH SLOW PITCH LEAGUE

St. James captured the playoff title Thursday evening by defeating St. Francis 8-1 in the final game of the double elimination playoffs.

Five runs in the top of the first inning enabled St. James to breeze through to a comparatively easy decision. The winners smacked out 15 hits as compared to but five for the losers.

Score by innings:
St. James — 502 010 0-8
St. Francis — 000 010 0-1
Batteries: St. James—R. Crouse and Rentzel; St. Francis—Cole and Stoner.

ORDERS WATER SQUEEZED OUT OF SMOKED HAM

WASHINGTON (AP) — With a bow to the consumer, the government today squeezed the water out of smoked hams.

An order by Secretary of Agriculture Orville L. Freeman applies to smoked pork products that are marketed under federal inspection. The ruling reverses one by Freeman's predecessor, Ezra Taft Benson.

Last December, Benson, secretary of agriculture in the Eisenhower administration, permitted the addition of moisture of up to 10 per cent in these pork products.

FEDERAL ACTION ONLY

Processors who are not under federal inspection already had made the moisture addition under their curing process. Benson said his ruling was designed to put federally inspected processors on a par with the others.

Consumer groups protested and Freeman ordered a series of public hearings throughout the country to measure consumer reaction.

These hearings, Freeman said in today's statement, showed preponderant consumer opposition to the Benson regulation.

The processors who come under federal meat inspection are those who ship from one state to another. Those processors who do business wholly within a state do not come under federal regulation.

Freeman's ruling goes into effect 30 days after publication in the Federal Register, the government's official publication.

FALSE TIP ON PLANE HIJACK

MIAMI, Fla. (AP) — A National Airlines plane arrived here from New York early today with two federal security agents aboard after a tip it would be hijacked.

The plane, Flight 81, was delayed in takeoff while its 119 passengers were searched for arms but the flight and arrival were without incident.

Pan American World Airways had notified authorities that an unidentified woman, speaking with a Spanish accent, telephoned the hijack warning to its Miami office.

PASSENGERS SEARCHED

She reportedly told PAA personnel that Flight 81, leaving Idlewild at 10 p.m. was to be hijacked. PAA has no Flight 81 out of New York but National's 81 was due at that time.

After the plane arrived here it became a Panagra flight to Panama and a PAA flight from Panama to Buenos Aires.

Passengers boarding the plane here were asked to submit to a voluntary search as the plane departed at 1:40 a.m. A spokesman for Panagra said as far as he knew no security agents were aboard when the plane left Miami.

Expect 100,000 At Annual Pilgrimage

UNIONTOWN, Pa. (AP) — The 27th annual pilgrimage to the Shrine of Our Lady of Perpetual Help at nearby Mount St. Marcelline got under way today.

Largest of its kind in North America, the pilgrimage will continue through Labor Day. Some 100,000 persons are expected to participate.

Mount St. Marcelline is the site of the motherhouse of the Byzantine Catholic Sisters of St. Basil the Great. Ground will be broken on Labor Day for a new motherhouse and novitiate.

QUARTERBACK OF PANTHERS ON CRUTCHES

MEADVILLE, Pa. (AP) — Jim Traficant, No. 1 quarterback on Pitt's football team, hobbled about on crutches today with the Panthers' first game little more than two weeks away.

The junior signal-caller injured both knees and ankle in a scrimmage Wednesday at the Pitt training camp at Allegheny College.

"We don't know yet whether there was any damage to the cartilage," Coach John Michelosen said Thursday night. "He had the muscles stretched pretty badly, and there is a swelling in one ankle."

IS VETERAN

Traficant is the only quarterback on the team with varsity experience. Backing him up are Sam Collella, a junior who did not play last year, and sophomores Glen Lehner and Paul Martha.

Michelosen said nothing definite was known as to the extent of Traficant's injuries. He said Traficant would continue receiving treatment here until the Panthers break camp Saturday and return to their campus Sunday night.

Pitt opens the 1961 season Sept. 16 at Miami (Fla.) University.

Even with Traficant in sound condition, Michelosen isn't too optimistic about the upcoming season. "We're very inexperienced," he says.

HAVE ROUGH SCHEDULE

Last year Pitt had a 4-3-3 record against some of the top teams in the country. Again this season the Panthers have a rough schedule. After Miami they meet Baylor, Washington, West Virginia, UCLA, Navy, Syracuse, Notre Dame, USC and Penn State.

Seventeen lettermen are back from last season, but only five are starters. Among them are the so-called "C" boys — senior halfbacks Bob Clemens of West Milford and Fred Cox of Monongahela. The others are center Andy Kuzneski of Indiana, Pa., and guards Regis Costillace of Youngstown, Ohio, and Larry Vignali of Masontown, Pa., all seniors.

Defensive Back Traded To Bears

HERSHEY, Pa. (AP) — The Philadelphia Eagles of the National Football League today announced the trade of defensive halfback Bobby Jackson to the Chicago Bears for a future draft choice.

The 25-year-old Jackson originally was drafted No. 6 by the Green Bay Packers in 1959. He was picked up before the start of last season by the Eagles and played in every game last year, substituting for Bob Freeman and Don Burroughs.

The departure of the Alabama speedster reduced the Eagles' squad to 39, three over the NFL limit.

Meanwhile, the Eagles in a workout Thursday simulated the defenses of the Washington Redskins as they sharpened their offenses for their exhibition game against the Redskins Saturday night in Bristol, Tenn.

Will Cremate Body Of Charles Coburn

NEW YORK (AP) — Actor Charles Coburn's body will be cremated here in a private ceremony, according to his wishes.

A lawyer for the late actor also disclosed Thursday that Coburn specified in his will he did not want his body to repose in a public room nor did he want any funeral services.

Coburn died of heart failure at the age of 84 on Wednesday in Lenox Hill Hospital after undergoing throat surgery.

Champion Fathers Watch Sons Win

TEL AVIV (AP) — A pair of former Maccabiah wrestling champions from the United States and Canada beamed with pride today as they congratulated their hefty sons on emulating their triumphs.

The proud fathers were Henry Wittenberg, former Olympic and Maccabiah champion from New York, and Fred Oberlander of Canada.

Mike Wittenberg, a Cornell University sophomore, captured the light heavyweight title and Phil Oberlander of Canada bagged the middleweight crown in the Greco-Roman grappling.

Both fathers are here as coaches. Wittenberg's triumph, plus two diving victories and five in track and field gave the favored Americans a gold medal total of 12, twice as many as the host Israelis.

IS VETERAN

Traficant is the only quarterback on the team with varsity experience. Backing him up are Sam Collella, a junior who did not play last year, and sophomores Glen Lehner and Paul Martha.

SEEKS FULLBACK

The 49ers-Rams fracas could explode into a free-for-all battle of offensive swiftness since both have pretty fair runners but questionable defenses.

Coach Red Hickey of the 49ers has a barrage of sprinters including Ray Norton, J. D. Smith, Gill (Cannonball) Cooper and J. W. Lockett.

The Rams, coached by Bob Waterfield, expect to generate an abundance of speed from Jon Arnett, Tom Wilson, Pervis Atkins and Dick Bass.

Modern World Closes Eyes To Obligation

THE GREATEST SIN, IGNORING THE LORD JESUS CHRIST

By REV. ELIZA MAE MYERS

Copastor Church of the Foursquare Gospel

"He was in the world, and the world made by Him, and the world knew Him not. He came to His own, and His own received Him not."

A young man walked into the public library in Chicago. He stood

there in the presence of accumulated wisdom. He could have read the story of man's life and struggles throughout all history. There were books on science, history, religion, art and music; books to enrich the mind, strengthen the character of any person. But the young man ignored their very presence by sauntering over to the information desk and asking, "Where are your comic books?" That young man closed the door to any help that might have come to him that day. He lost the chance of growth and enrichment of mind and character, not because help was not available, but because he was unresponsive to its presence.

This is the greatest sin of the people today, as well as when

Christ came into the world, ignoring the claim upon their lives, or not availing themselves of the help they could have. This was the most tragic aspect of Christ's life and ministry. The people were unaware of His presence and claim upon them.

LIFE, LIGHT, PEACE

Christ came to bring life, light, and peace. But, John reminds us, "They loved darkness rather than light because of their evil deeds." And because of that they were condemned to darkness and despair. Not that Christ did not care or wouldn't help them, but they had eyes to see, but did not see, ears to hear, but refused to hear, a heart but did not care. Paul tells us in I Cor. 4:3, that if the

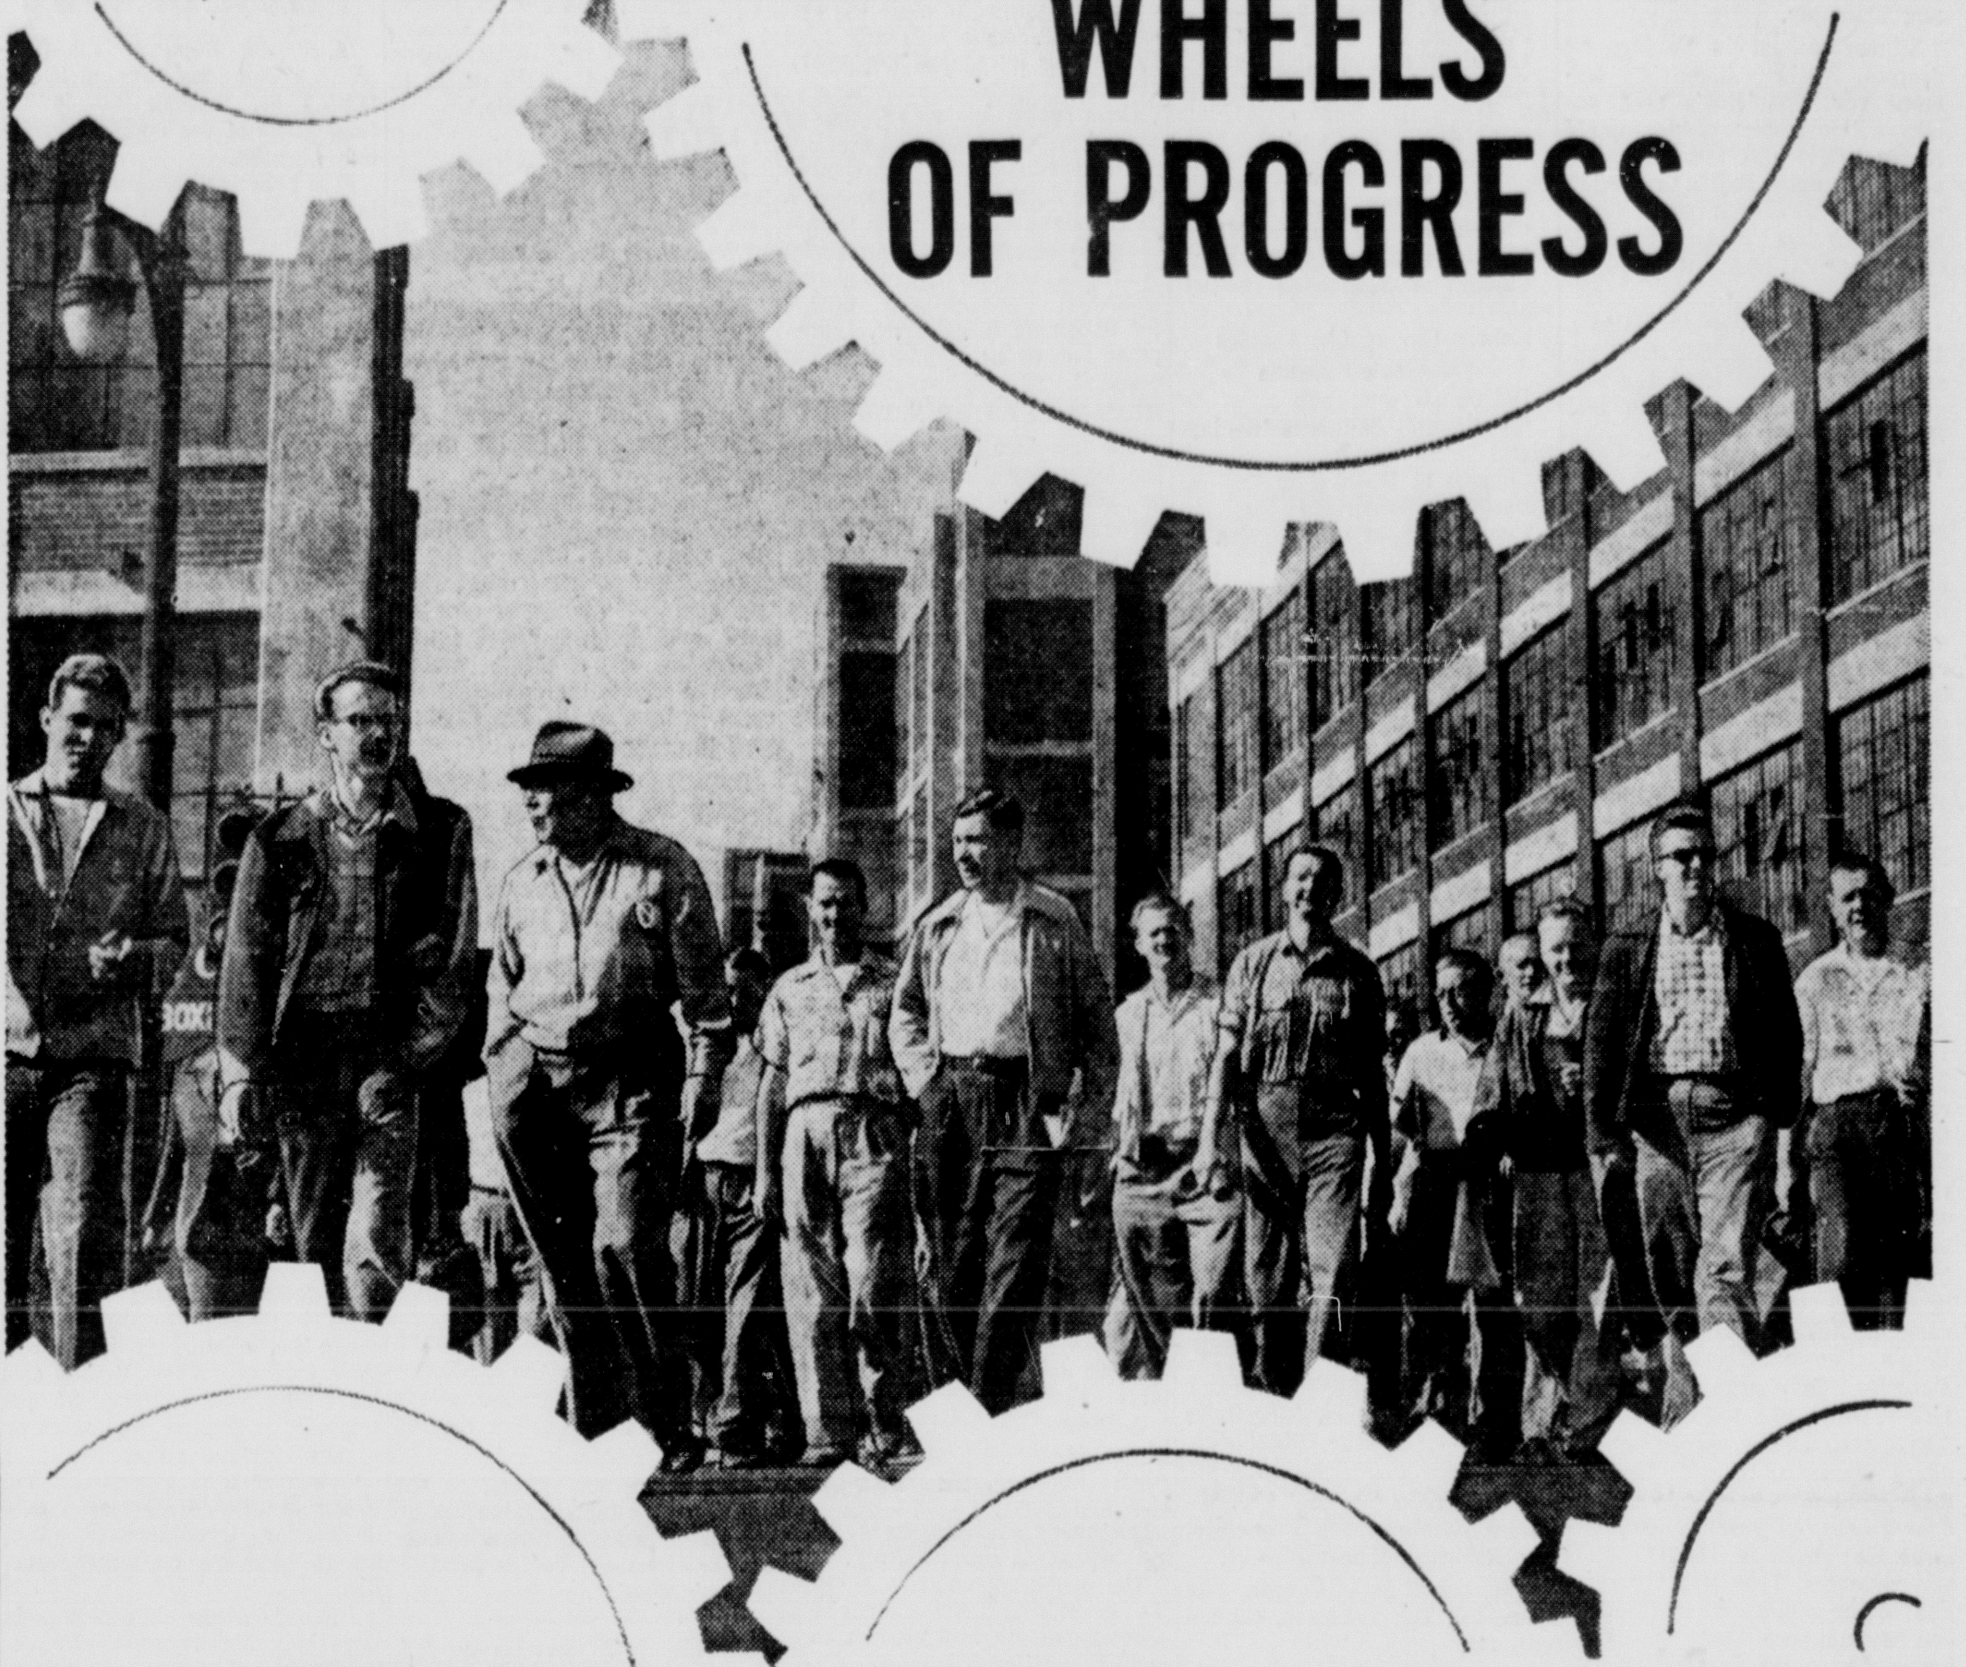

gospel be hidden, it is hidden to those that are lost. The God of this world has blinded their eyes. The indictment against his own was that they too were unaware of his claim and were unresponsive to his message.

Today carelessness and neglect of our responsibilities, to His claim on our lives as Christians, is the greatest weapon the devil has in hindering the power of the church to bless the world. Oh no, people do not oppose the church; they attend but simply do not care about the program. As far as they are concerned, the church is unimportant. Many times the church is defeated, not by those who oppose its program, but rather by those who close their eyes to the needs of others, and the claim

Christ has upon them. The work of Christ is retarded simply because many church people do not care. They all with one consent begin to make excuses. Surely there is no greater condemnation than this. We have light that would dispel the darkness, but are we concerned? Are we aware that all we have, our money, our talents, our houses and lands, belongs to God and we are but the stewards and must give account of the proper use of any thing we have. God needs us as His channels for the achievement of His will on earth, that it may be done, as it is done in heaven.

ADVERTISE IN THE TIMES

WHEELS OF PROGRESS

THE CHURCH FOR ALL... ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

Day	Book	Chapter	Verses
Sunday	Nehemiah	4	15-23
Monday	Psalms	128	1-6
Tuesday	Haggai	1	1-6
Wednesday	I Corinthians	3	1-9
Thursday	I Corinthians	3	10-17
Friday	Philippians	2	3-11
Saturday	I Thessalonians	2	8-13

Mass production has taught us a new dimension in cooperation. Now three men operate the same machine around the clock. And as the whistle blows at the change of the shift one hand surrenders the lever to another—while the wheels spin endlessly.

The same ready cooperation is becoming characteristic of the work of our churches. A Church School teacher moves to another city. There is another earnest Christian to take over her class. The term of an officer expires. There are equally qualified men ready to serve if elected.

Make willingness one of your virtues as you go to Church each Sunday. Volunteer for one of the humble yet all-important tasks that keep the wheels of spiritual progress forever spinning.

SPIKE HEELS ARE HAZARDS FOR WEARERS

By HAL BOYLE
NEW YORK (AP)—How do you stand on the spike-heel issue? This is developing into quite a controversy.

In question are the high, almost needle-pointed steel heels now being worn by millions of American women ranging from teen-agers to grandmothers.

To the casual male eye a woman wobbling on these stiltlike shoes is neither more nor less ridiculous looking than the same woman was a few years back when she affected "the sack look" and resembled an unleashed blimp.

PUBLIC MENACE
But critics of spike heels say they aren't funny. They say they are a private danger and a public menace.

The ladies trip and fall on their proud cold faces, and get up and file damage suits against anyone in sight.

Their heels get caught in escalators, subway gratings, rubber welcome mats, manhole covers, and sidewalk cracks.

RIP RUGS
Their heels rip expensive rugs to tatters, punch holes in air-planes, and scar and dent the strongest flooring.

As a recent magazine article pointed out, a woman poised on a pair of these ambulant stilettos exerts a far greater weight per square inch than does an elephant.

But despite the hue and cry being raised against this style of feminine footwear, I rather favor it—and I'll tell you why.

CAUGHT IN ASPHALT
The other day a fat lady shopper loaded with bundles stood in the street, perspiring in the plus-90 degree heat as she waited for the traffic light to change.

It finally did change, but still she stayed motionless. She tugged and tugged, but couldn't move.

Both her spike heels had become caught in the hot asphalt, and she was slowly sinking into the street. Looking around helplessly, she espied me.

"Don't just stand there gawking," she said authoritatively. "Do something."

Well, as a crowd gathered, I bent manfully to the task. In 15 minutes, with the aid of three passing Boy Scouts, I finally managed to set her free.

The crowd broke into applause, the fat lady mumbled "Thanks," and stomped off—on her toes.

Well, I guess that applause—and being publicly thanked by a woman—kind of went to my head.

In my lunch hours now I hang around subway gratings, manhole covers and office escalators, and so far have managed to rescue four more damsels, caught by the heel and struggling. Now I bow when the applause breaks out.

That's why I am in favor of ladies' spike heels. When the inevitable emergency arises, it enables a fellow to become a knight errant and prove that male gallantry isn't quite as dead as vaudeville.

Foreman Is Blamed For Gas Explosion

PITTSBURGH (AP)—U. S. Steel Corp. has blamed a foreman for an explosion that injured 11 workers at the firm's Irvin Works Thursday.

A company spokesman said the foreman was dismissed but declined to give his name.

The company said the foreman opened a valve on a faulty gas line, causing natural gas to accumulate in an idle furnace that was being relighted at the No. 1 sheet temper mill.

Five men were hospitalized, and six others received dispensary treatment.

New President Of Brazil Nears Homeland; Biggest Nation Is On Brink Of War

By THE ASSOCIATED PRESS
SAO PAULO, Brazil (AP)—Vice President Joao Goulart today reached the fringe of the Brazilian border for a dramatic return to claim the presidency that may plunge South America's biggest nation into civil war.

Beaming with confidence, the vice president bided his time in Montevideo—only about an hour's flying time from the border—as rival military forces jockeyed cautiously for position still hundreds of miles apart.

Brazil's three military chiefs, headed by War Minister Marshal Odilio Denys, announced Thursday a combined operation had been launched to subdue the pro-Goulart forces in the southern state of Rio Grande do Sul, the vice president's home.

SOME LANDINGS
There were reports of small-scale landings at several points but no fighting was reported.

Goulart, 42, blackballed for the presidency by the military chiefs as being pro-Communist, told newsmen in the Uruguayan capital his position is "shaping up good" as the week-long crisis created by the sudden resignation of President Janio Quadros seems to near a showdown.

Goulart did not say when, where or how he would make his return entry into the country. But he has proclaimed at every step of his slow journey back from a Far Eastern tour that took him to Peking: "I am returning to Brazil to assume the presidency."

The leftist Labor party leader emphasized he favors a constitutional government founded on Christian principles and declared: "I am not a Communist."

PATROL BORDER
Marshal Denys, army strongman masterminding the interim government, reportedly ordered the air force to patrol the Brazilian-Uruguayan border and intercept the vice president's plane if he should try to fly back. There was some speculation Goulart would travel overland.

It was assumed Goulart would go to Rio Grande do Sul, across the frontier from Uruguay, where State Gov. Leonel Brizola, Goulart's brother-in-law, and Gen. Jose Machado Lopes, commander of the 60,000-man 3rd Army. Both defied Denys and sided with the vice president.

Preparations were made to welcome Goulart at Porto Alegre. Brizola met with state officials Thursday night and reportedly discussed plans for Goulart to set up a national government at the state university in Porto Alegre. Later the governor conferred with Goulart by telephone.

WOULD AVOID FUSS
Brizola in a broadcast appealed to interim President Ranieri Mazzilli in "the name of legality and the constitution" to go to Porto Alegre and hand over to Goulart the presidency from which Quadros resigned a week ago. The governor said his forces were not rebels but were committed to maintain the principles of legality.

"We will not fire the first shot," Brizola declared, "but we will

fire the second and then many more."

The newspaper Folha de Sao Paulo said 3rd Army forces had occupied Paranaguá, a port and rail terminal less than 200 miles south of Sao Paulo, and were advancing north. There was no confirmation of the report.

NEGROES TO PROTEST
Utility Firm Hiring
PITTSBURGH (AP)—Edward B. King of Atlanta, Ga., head of the Student Nonviolent Coordinating Committee, says the group plans a protest movement in the South this fall against telephone and other utility firms.

"We will protest because these utility firms have not hired Negro employees," King said in an interview Thursday prior to his appearance at the convention of the National Federation of Catholic College Students.

King, 22, declined to state what form the scheduled protest would take "because it would tip our hand," but he said it would be "as orderly and dignified as possible."

ASKS FEDERAL LAW TO UPSET BOOKIE WIRES

WASHINGTON (AP)—Sen. John L. McClellan has recessed Senate racket hearings with this observation: "Race information wire services, operated for the benefit of bookmakers, must be put out of business by federal law."

And, the Arkansas Democrat added Thursday, his Senate investigations subcommittee "will recommend a law to bring this about soon."

McClellan ran into persistent pleading of the Fifth Amendment's protection as he sought to quiz race wire operators about their business. He said race wires are "the very life blood" of bookmaking, and that hoodlums who run such enterprises cheat the government out of billions of dollars a year in income and wagering taxes.

RECESSED HEARINGS
McClellan recessed the hearings until Sept. 7, when the investigation will focus on the business of setting betting odds in horse racing, basketball, football, baseball and other sports. The subcommittee already has heard odds can be rigged—and often are—in favor of bookmakers.

Owen (Owney) Madden, the old New York mobster, invoked the Fifth Amendment Thursday when the subcommittee sought to learn if he now operates a race wire service in Hot Springs, Ark.

Now 68, Madden said he had given up "criminal activities" and retired, but he refused to tell from what he retired. He said that might incriminate him in some way.

Army Critically Needs 500 Nurses
WASHINGTON (AP)—The Army Medical Service said Thursday it critically needs 500 additional nurses because of the recent buildup of the Army.

The medical service said the Army hopes to meet the immediate requirement through volunteer nurses, mainly young women and men who have not yet served in the armed forces.

Old lawn a flop? Get a new one!

Ever wish you could throw out that old, problem-ridden lawn and start over—only to decide, after all, that it just wasn't worth the trouble and expense of digging up, bringing in topsoil and all the rest?

Now you can start over without making problems for yourself. New ERASE® lets you wipe out crabgrass, weeds, grass—all lawn vegetation—in an easy spreader application. One week later, without digging up or bringing in topsoil, you can sow Scotts seed and get it off to a quick start with TURF BUILDER®.

Like to know more about the easy Erase way to get a new lawn? See us today.

Musial's 1st Hit In Series Wins Tilt

PHILADELPHIA (AP) — In three previous games against Philadelphia this week, the St. Louis Cardinals' Stan Musial had been blanked in nine official trips to the plate.

But Thursday night, Musial got his first hit in the four-game series and it beat the Phillies 2-1. With the score tied 1-1 and two out in the ninth, Art Mahaffey walked Ken Boyer. Then Musial tripled off the wall in right to score Boyer.

A Lovelier You

By MARY SUE MILLER
PERK-UPS FOR WEEKENDERS. If your weekend wardrobe appears a bit jaded, and most do at the summer's end, the chances are you will find more than last-minute perk-up among these ideas:

- To replace a disreputable belt, use a long scarf. Wrap it cummerbund style around a dress; run it through the belt loops of skirts or pants, and then tie the ends in a knot. Another good stand-in for a belt is a man's necktie. But be sure you don't get caught snatching it!
- To give a fresh look to cuffed skirts, fashion cuff links of

real or fake flowers. Small varieties, like pompons and dwarf carnations, are usually best suited to the purpose. However, large blooms add a right dramatic touch to evening shirts. Flower links can be made in a trice. You simply fasten your blooms with fine wire to a pair of old links.

• As a lift for a white outfit, break out some dark accessories—amber-colored beads and taupe stockings, for instance.

• Restore the color to faded canvas flats by tinting, via the spray or dip method. When flats are washable, the dip method is preferable.

• For a worn beach bag substitute a small market basket, lined with a bright terry towel. And the brighter the towel and more rustic the basket, the smarter!

LOSE WITHOUT BLUES
Weep no more about excess weight! You can lose without hunger pains, fatigue and flabby aftermaths. Just send for "Lose Without Blues," a 16-page booklet that gives delicious menus, easy spot-reducing exercises, dieting tricks, your model weight and how to maintain it. For your copy, write me: A Lovelier You, Box 158, The Gettysburg Times, Dundee, Ill., enclosing a long, self-addressed, stamped envelope and 20 cents in coin.

Former President Eisenhower Keeps Staff Busy; Heavy Correspondence; Many Callers; Is Writing A New Book

By SAUL PETT
AP Newsfeatures Writer

NEW YORK (AP)—Gen. Eisenhower seldom ventures into the life of the community of Gettysburg. The one social occasion he attended was a stag dinner, served on card tables, given by a Gettysburg attorney to introduce him to the local pillars. The conversation, one gathers, had its awkward lulls, after all, what do you say to a former President and a general of the army?

Mamie Eisenhower and a maid occasionally appear in the A & P or Acme Supermarket to shop. This is one small ambition Gen. Eisenhower has yet to fulfill in retirement. Supermarkets developed in the years of his greatest celebrity, when he had no chance to visit one. He still foregoes the pleasure until he can be sure of entering a supermarket without creating a stampede.

KEEPS STAFF BUSY
Instead, six days a week, he drives directly to his office without stops. There he keeps a staff of six busy. He also has the help of his son, Lt. Col. John Eisenhower, who has taken a leave without pay from the Army and now lives with his family in a small house on the corner of the Eisenhower farm.

The office has no security guard as such but visitors don't get in without stating their business into a squawk box at the front door. Any unauthorized intruder breaking into the back room where the general keeps his classified files would immediately touch off an electronic alarm that would bring police.

HEAVY CORRESPONDENCE
The day is given over mostly to answering heavy correspondence (a single morning's mail brought equally fervent invitations from a prime minister and a sorority housemother) and to work on the general's book about his Presidency. He dictates and then edits furiously in a flurry of chicken scratches.

His appointment calendar is full, often with substantial names. In

a recent two-day period, for example, the general conferred with Gov. Nelson A. Rockefeller of New York; Sen. Everett Dirksen and Rep. Charles Halleck, the Republican leaders in Congress; former White House Assistant Bryce Harlow; Robert Humphrey of the Republican Congressional Campaign Committee; and publishers C. D. Jackson of LIFE Magazine and Bennett Cerf of Random House.

PHOTOGENIC FACE
Talking or reading, the familiar photogenic face is remarkably mobile, the blue eyes warming instantly at a favorable sight or thought, the wispy brows frowning just as quickly at something unwelcome, the famed smile breaking out like the sun after a summer storm. His hands remain busy too, fiddling with a nail file, twirling glasses or a letter opener.

From his office, Gen. Eisenhower also runs his personal affairs. He confers frequently with his friend, Brig. Gen. Arthur S. Nevins, who supervises his farm. From his desk, too, he has turned down some fat offers, including corporate directorships which would pay him \$100,000 a year each for a few hours a month. He refuses to lend his name to commercial ventures.

FINE RETURNS FROM BOOK
In addition to his \$25,000-a-year Presidential pension, Gen. Eisenhower enjoys a sizable return from investments. His first book, "Crusade in Europe," netted him between \$400,000 and \$500,000 after taxes. Invested in a trust which was completely out of his hands while he was in office, this money has been "considerably enhanced," according to a Wall Street friend.

It was not ever thus. Early in 1948, before the book came out, Gen. Eisenhower retired as Army chief of staff at what appeared to be the peak of his career. He bought a car and as he and Mamie were being driven out of Washington in the new purchase, he said, "We're riding out of town on our entire capital."

Today the Eisenhowers have the

use of several cars, including a sedan, a station wagon, a compact with a fringe on top, farm jeeps as well as a 1966 Chrysler limousine which was bought from the White House pool because Mrs. Eisenhower preferred its headroom and comfort.

The general prefers the sedan and station wagon and at noon one of them carries him from the office to the farmhouse for lunch and a nap. He then returns for more work at the office but after a couple of hours begins to study the sky restlessly. Weather permitting, he then ducks out for golf about four times a week. But with whom?

Dwight D. Eisenhower has a host of friends over the country, men who used to come at a moment's notice when he was in Washington to play golf with him or bridge or counsel with him or just supply company. Before he left the White House, he wrote a letter to the wives of all of them, thanking the ladies for their patience and the loan of their husbands.

"FIRST NAME BASIS"
To his friends, the retiring President wrote a special letter demanding that, since he was leaving office, he be reinstated on a first name basis and be called "Ike." None has yet been able to bring himself to call him that, such is the awesome memory of the office.

In or out of the White House, Dwight Eisenhower has many devoted friends, any of whom would still drop everything to come play golf with him. But geographically, Gettysburg is an awkward place to get to and so he has fewer going companions these days.

On days when his son or Gen. Nevins is not available, Gen. Eisenhower plays alone. Unless, of course, Master David Eisenhower, age 13, is not too busy.

FOND OF GRANDCHILDREN
The former President is fond of all his three granddaughters but he has a special affinity for his only grandson, who resembles him and would not exactly disappoint his grandfather by going to West Point someday. The two have always been close, a proximity that sometimes dimmed the boy's historical perspective.

Several years ago, President Eisenhower was conferring in the living quarters of the White House with Richard M. Nixon when the boy sailed in.

"Hi, Ike," David sang out. "Hello, David," said the President. "You know the vice president, don't you?"

The boy turned to Nixon and his eyes popped and he exclaimed, "The vice president! Wow!"

AWARE OF EMINENCE
Since then, David has become increasingly aware of the general's eminence, and has come to call him "Grandfather." But he remains his own man. On several recent afternoons, when the 33rd President of the United States called to invite him out for golf, the boy declined with regret because he had "people over" or was on his way to play baseball.

The biggest evening in the Eisenhowers' week is the one that their three grandchildren spend with them. The general enjoys talking with them but has learned to his surprise that kids today are not particularly interested in talking about the past. This is contrary to his own experience as a boy in Kansas when he loved to listen to adults talking about the old West or the Civil War.

IS AVID READER
On other nights, when the general and his wife are alone, he usually spends his evening reading foreign affairs pamphlets, biography, historical novels or westerns. Mrs. Eisenhower watches television, particularly "Father Knows Best" or Danny Thomas or Lawrence Welk. The general occasionally wanders over to watch.

He is fonder of the hi-fi set, which he has not yet figured out how to turn on himself.

RESUMPTION OF TESTS TO GIVE U. S. CHANCE TO WIN SUPPORT

By MILTON BESSER

UNITED NATIONS, N.Y. (AP)—The Soviet Union's decision to resume testing of nuclear weapons has dealt a crippling blow to hopes in the United Nations for East-West progress on disarmament.

But it has given the United States a golden opportunity to win great support among the Asian-African nations — the so-called neutralist group — provided the Americans play it cool. And President Kennedy is giving every indication of doing just that.

That is the consensus among many veteran observers here assessing the impact of the Soviet announcement.

SHARED SHOCK

The Asian-African diplomats in general shared the shock and dismay of other diplomats outside the Soviet bloc at the Soviet decision. They have been in the forefront of the long-standing demands for an end to nuclear weapon tests, as well as overall progress in disarmament. They had hoped along with the others that a test ban treaty would give the world a big push toward a disarmament agreement.

The United States and Britain have already proposed that the U.N. General Assembly opening Sept. 19 take up the urgent need for a treaty to ban nuclear weapon tests under effective international control.

Last year the assembly approved without a dissent a resolution calling for a test ban treaty and continued suspension of tests. The United States abstained because the resolution did not spell out the significance of effective controls.

TO DRAFT RESOLUTION

The United States now will undoubtedly try to get the assembly to adopt the strongest kind of resolution—one that would criticize the Soviet Union harshly for resuming tests. If the United States can persuade a big number of the Asian-African members to support such a resolution, it would hand the Soviet Union a thumping propaganda blow.

President Kennedy's statement that the United States has sufficient nuclear weapons in its arsenal for defense of the Free World was interpreted here as showing determination not to be stampeded into following the Soviets in resuming tests.

Kennedy's carefully worded message to the Belgrade conference of nonaligned nations was also drawing praise among the neutrals.

C. O. Williams Is House Secretary

HARRISBURG (AP)—C. O. Williams, 57, of Washington, is the new secretary of the House. Williams, a former House member for 14 years, was elected to the \$11,500-a-year post Thursday night. He succeeds Philip Lopresti who stepped down to take a job as executive director of the Legislative Budget and Finance Committee.

In the Senate, Sen. Anthony J. DiSilvestro, D-Philadelphia, was elected president pro tempore in the interim before the 1962 legislative session. He served in the post during the 1961 session. The president pro tempore is the chief officer elected by the senators themselves.

Nike-Zeus Is Fired In Solid Fuel Test

WHITE SANDS MISSILE RANGE, N.M. (AP)—The Army has successfully fired a Nike Zeus antimissile missile in a test of a new main stage motor using a higher performance solid propellant.

The firing also was for the purpose of studying missile structure and ground electronic equipment making up the weapon's command guidance system. The rocket was fired Thursday from ground level.

Paul Hare, They also visited John Gillette in St. Petersburg and Mr. and Mrs. Fred Woods in Orlando, who are former residents of Fairfield.

Jeffrey Scott, infant son of Rev. and Mrs. Robert Paden, was baptized in the United Church of Christ. Weekend guests at the Paden home were the parents of Mrs. Paden, Rev. and Mrs. Ira Harkins, Tiffin, O.

2 ARE KILLED, 8 INJURED IN 3-CAR MISHAP

PITTSBURGH (AP)—A tractor-trailer truck collided with two autos on Route 30 in nearby North Versailles Twp. Thursday, killing a young mother and her daughter.

Eight other persons were injured in the crash near the intersection of Route 48. Four of them were hospitalized.

Mrs. Nancy Sink, 24, of State College; and her daughter, Lou Ann, 4, were dead on arrival at McKeesport Hospital.

SOME WERE ADMITTED

Admitted were William Kelly, 28, Greensburg, fair condition; his daughter, Katherine, 4, serious; Mrs. Geraldine Severns, 41, suburban Crafton, fair, and her daughter, Mrs. Bernadette Hodg-

kiss, 19, Crafton, fair. The following were released after treatment: Kelly's wife, Elizabeth, 28; their son, William, 3; Mrs. Sink's husband, John, 37; and Mrs. Severns' husband, George, 41.

Police Capt. Henry Stapinski of North Versailles Twp. said the truck, headed west, apparently was forced into the eastbound lane by an auto attempting to cut in front of it.

DRIVER NOT INJURED

The tractor-trailer sideswiped a station wagon occupied by the Kellys and Sinks, then collided headon with the Severns vehicle, Stapinski said.

The truck driver, William Krause, 47, of Crafton, was not hurt.

Arnold Palmer, a two-time Insurance City Open winner, finished this year's tournament at Hartford, Conn., with a pair of 73s to tie for 30th position. He began with 68-67.

If your little girl is headed into her teens, and she's extra petite—here's some good news.

Many manufacturers of girls' dresses have added a size, known as G, which offers subteen styling in girls' 7-14 size range. This applies only to dresses, however.

Also, it's so new that not all stores have stocked this size—as yet, and it may be found in different departments of different stores: children's wear, sub-teen section, or in a separate area.

GOOD FACIAL ALWAYS HELPS TO LOOK FRESH

There always seems to be one gal at every school who's a whiz in class and a knockout on campus. She's the type who never oversleeps or falls into class with hair uncombed and eyes at half-mast; always looks fresh and bright.

Her secret? It's simple. She relies on an easy-care wardrobe and a never-skip beauty routine. The combination's unbeatable for fresh, good looks . . . and it begins when you pack to go back to school.

This fall, you can guarantee part of your good looks when you shop for clothes. Select easy-care fabrics that drip dry or are treated to resist staining. Both features will take time off your hands, eliminating both the need for ironing and more frequent launderings.

The second secret of good looks is the never-skip beauty routine. Here's one devised especially for busy upper-class girls by the Lady Remington Beauty Institute. It needn't take hours each day, but to insure a poised and polished look when you really need it, no "cuts" are allowed.

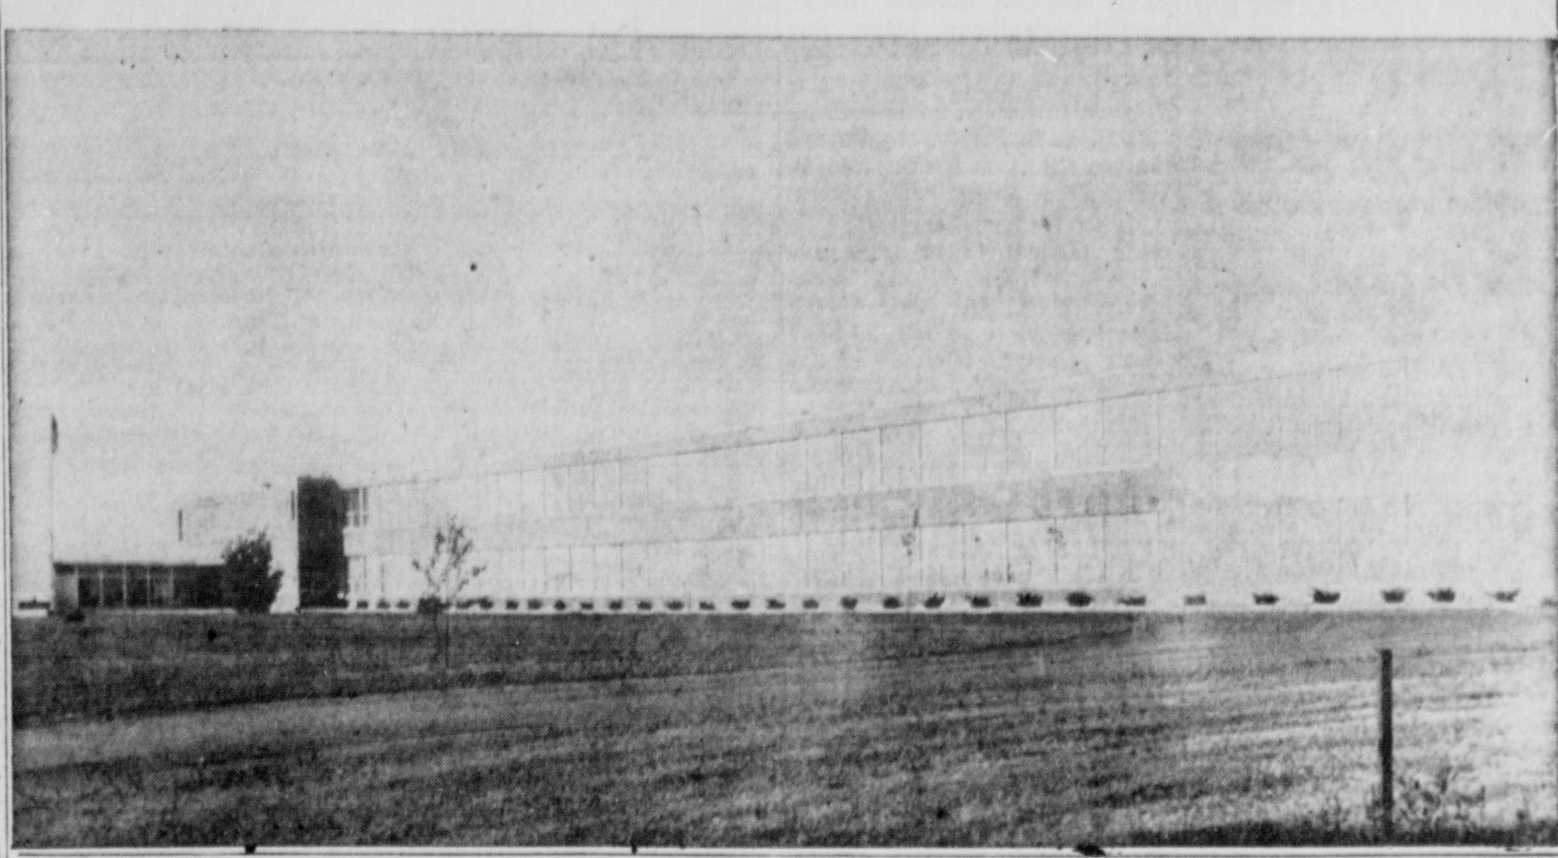

There are four steps — Step one: each day, brush your hair vigorously . . . while you're trying to memorize French conjugations or other lessons. You'll find you're working up to 100 strokes in no time flat.

FACIAL QUICKIE

Step number two: before bed time, brighten your face with a quickie facial. It takes just a minute more each night than just washing your face. Massage a mild soap into your face, using upward, rounded strokes. Remove soap with lukewarm water, then splash on cold, tapping your face gently to increase circulation. The massage and cold water stimulate circulation and unclog pores where blackheads begin. Result! A rosy complexion for class in the morning.

Step three: keep hand lotion handy, preferably at the spot where you ordinarily wash your hands. Dry hands carefully, then apply hand lotion liberally . . . on

Good Equipment Boosts Appreciation Of Music

Teen-agers may be push-overs for "rock-and-roll" and other musical fads simply because their schools do not provide the facilities to teach music appreciation properly.

Too many schools today, he

elbows, too. You'll never have to remedy chapped hands again, because you'll never have them.

Step four: once a week, set aside an hour for a relaxing beauty session. Use it to take a leisurely tub, fragrant with bath oil or bubbles. Soak. Stretch. Lather toes, elbows and back, last. Pat yourself dry, dust with bath powder; splash on cologne.

Then go after leg and underarm hair with your own personal electric shaver. Newest of the lot—is the Lady Remington, the only shaver made to adjust for legs and underarms.

When your beauty hour is up, you'll feel relaxed and lovely—all set, in fact, for a week of hit-and-run grooming.

said, are using the same old phonograph and wornout records that they used 10 or even 15 years ago.

"You can't teach good music with poor sound," Machin said. "A symphony played on battered equipment runs a poor second to a 'pop' tune played on a high-fidelity juke box."

While teachers and parents do not expect all students to learn to appreciate good music, they do want young people to have a basic familiarity with the great composers and their works, he said.

On the basis of his firm's experience in the sound reproduction field, Machin recommends that schools take steps to improve their music appreciation facilities.

Work with an experienced high-fidelity enthusiast who knows what's needed. He may be a student, a teacher, or a parent.

The sound reproduction is obtained with high-fidelity compo-

nents: an amplifier of at least 20 watts output (40, if it's a stereo amplifier), a good turntable and tone arm, a magnetic cartridge with diamond needle, and wide-range loudspeakers (5 to 15, cycles) in the proper enclosures.

At least \$250 should be allotted for new equipment. If the school budget does not permit this, possibly the Parent-Teacher Association may donate all or part of the equipment. The local high-fidelity dealer will be happy to recommend components that offer the best value for the money.

Records should be properly handled and stored; kept in dust-proof jackets, handled only by their edges and wiped with a lint-free cloth before and after playing.

"Musical appreciation instructors will find students are more apt to listen attentively and learn more with high-quality equipment," Machin said.

Nice for Friday lunch: Arrange sliced hard-cooked eggs and drained sardines on an ovenproof platter or in a shallow baking dish. Top with cheese sauce; broil until hot through and lightly browned. Use Cheddar or Parmesan for the cheese.

NEW BUILDING HANDLES NEED

With an expected enrollment of 559 students when school opens Tuesday morning at the Littlestown Senior High School, administrators are well prepared to handle that number since the new building, to be dedicated Sunday, has been built to accommodate 731 students.

In 1951, there were approximately 450 students at the high school while the 1961 figure was 550, an increase of 100 or approximately 25 per cent. At this rate, the new structure should be able to handle a like percentage increase in students for the next 12 or so years.

In the elementary school there is an expected student enrollment this fall of 700, compared to 554 in 1951. This figure is out to be more than a 25 per cent increase, and thus, when these students reach senior high school, the percentage of students there will also be increased proportionately.

The Littlestown Joint School System is comprised of students from the borough, Germany and Union Twp., and the southwestern portion of Mt. Pleasant Twp. and the southern portion of Mt. Joy Twp.

Students Will Have Many Educational Opportunities In New High School Plant

Residents of the Littlestown Joint School system will have an opportunity Sunday to view the new \$963,400 high school building, a structure that many persons considered necessary many years ago.

The joint school board noted the increasing attendances over the years and soon plans were under way to construct a building that would take care of the immediate and future needs of the community.

The building and planning committee appointed by the joint board included: Lloyd E. Crouse, chairman, Littlestown borough; Glenn C. Bower, Mt. Joy Twp.; George W. Strevig, Germany Twp.; Fred H. Hartlaub, Mt. Pleasant Twp., and Bernard W. Dutterer, Union Twp.

GROUND BREAKING

Ground-breaking ceremonies for the new structure took place April 4, 1960, on a 22-acre site located a short distance northwest of the old high school. Those taking part in the ceremonies were: Wilbur A. Bankert, chairman of the Joint School Authority Board; Dale Starry, president of the Joint Board; Frank E. Basehoar, high school principal; Paul E. King, supervising principal; John Gentzler, treasurer of the joint authority, and the late C. L. Forrer, architect of the school.

Following the ground-breaking ceremonies, ground was excavated, steel beams made their appearance and soon residents were watching the skeleton of the building take shape, until finally the brick walls were erected.

The cornerstone laying took place on October 9, 1960, with Lloyd Crouse, Bankert, Starry and King participating.

FINE FACILITIES

Since the cornerstone laying, the structure has been moulded into a institution that Littlestown residents can be proud of. Among the many new features which faculty and students will be using for the first time are: A modern auditorium which seats 810 persons; a gymnasium, that seats 810 persons and has two locker and shower rooms. In the old building, the auditorium and gym were combined into one, the janitors having to take down chairs whenever the gym was needed and put them up again when the student body was to congregate for assembly. The 7,500-square footage in the new gymnasium is in decided contrast to the old "shoe box" students were used to using.

Included in the new school are two faculty rooms. Teachers formerly had no lounge areas, no place for special meetings. With the new facilities, their needs will be answered.

The 320-square-foot administrative area is another point that is in decided contrast to the old. Weighing the cramped office space of the old building, the designers of the new structure made certain that there would be enough space for the administrators. Located in the area are the public address and speaker system, which enables a person to speak from the office to any room or area in the building.

ATHLETIC FACILITIES

Steeped in the tradition of having fine athletic teams, Littlestown now will boast of having some of the best facilities in Adams County. Along with the new gymnasium and locker room facilities, athletes will also have a new track to get in shape with. Track is a new sport at the school but, with the modern facilities, it is expected that good teams will produce results the students will be proud of.

The joint school authority is headed by Chairman Wilbur Bankert. Other officers are: Luther Hess, vice chairman; Parr Breighner, secretary; John Gentzler, treasurer; and Arthur Leatherman.

Saul, Ewing, Remick and Saul are the bond counsel for the school; Butcher and Sherrerd, fiscal agent; Littlestown National Bank, trustee; and Daniel E. Teeter, legal adviser.

The school administrators are: Paul E. King, supervising principal; Frank E. Basehoar, high school principal; Lloyd L. Staveley, administrative assistant; John H. Riley, elementary principal; Mrs. Mildred H. Kline, secretarial accountant; Miss Diane Meisenhelter, general secretary.

The faculty includes: Elmer W. Gall, guidance counselor; Donald C. Feaser, librarian; Brenda B. Walker, nurse; Rachael W. Barley, Latin, French; Louella Baumgardner, English; John D. Bream, health and physical education; Maurice E. Bream, biology and science; Dorothy P. Crabbs, English, reading; Ruth W. Elder, English; Clayton L. Evans, director of educational science; Ronald B. Hall, industrial arts; Paul A. Harner, instrumental music; Nancy L. Horrell, English; Frank A. Keefer, commercial; Ronald M. Lawhead, social studies; Robert C. Musser, vocal music; Guy J. Oyler,

mathematics; James L. Rhoades, social studies; Beverly Ritter, special education; Mary Kay Sontz, health and physical education; Donald C. Sheely, art; Virginia O. Sheely, home economics; H. Dean Stover, physics and mathematics; and Richard D. Thoms, chemistry and algebra.

Nonprofessional employees include Ralph C. Unger Jr., school police and truant officer; Luther Myers, John Sell and Russell Meisenhelter, custodians; Hope King, director; Emma Horner, Marjorie Schaefer, Ruth Myers and Marion Little, cafeteria personnel.

WOMEN SHOULD SUIT FASHIONS TO OWN NEEDS

By ALTON BLAKESLEE
The Associated Press

Housewives are among the nation's biggest spenders — of calories.

Her daily tasks can cost her 4 to 7 calories per minute.

Meanwhile her desk-job husband is spending 1.5 to 2, the steel worker 3 to 4.

CALORIE BANK

All this can have great bearing on a woman's calorie savings bank, and her figure.

For calories are like money. Put too much in the bank, and the account swells. Spend more—even a little more every day—and the savings dwindle.

Just how much total energy or calories housewives spend varies far more than that of factory workers performing the same job in the factory, says Dr. Herman K. Hellerstein of Western Reserve University Medical School, Cleveland.

ADD IT UP

Much depends on the size of her house, how many children she tends or pursues, how many labor-saving appliances she enlists. Dr. Hellerstein, an authority in measuring the energy costs of various jobs, cites these house-keeping spending figures:

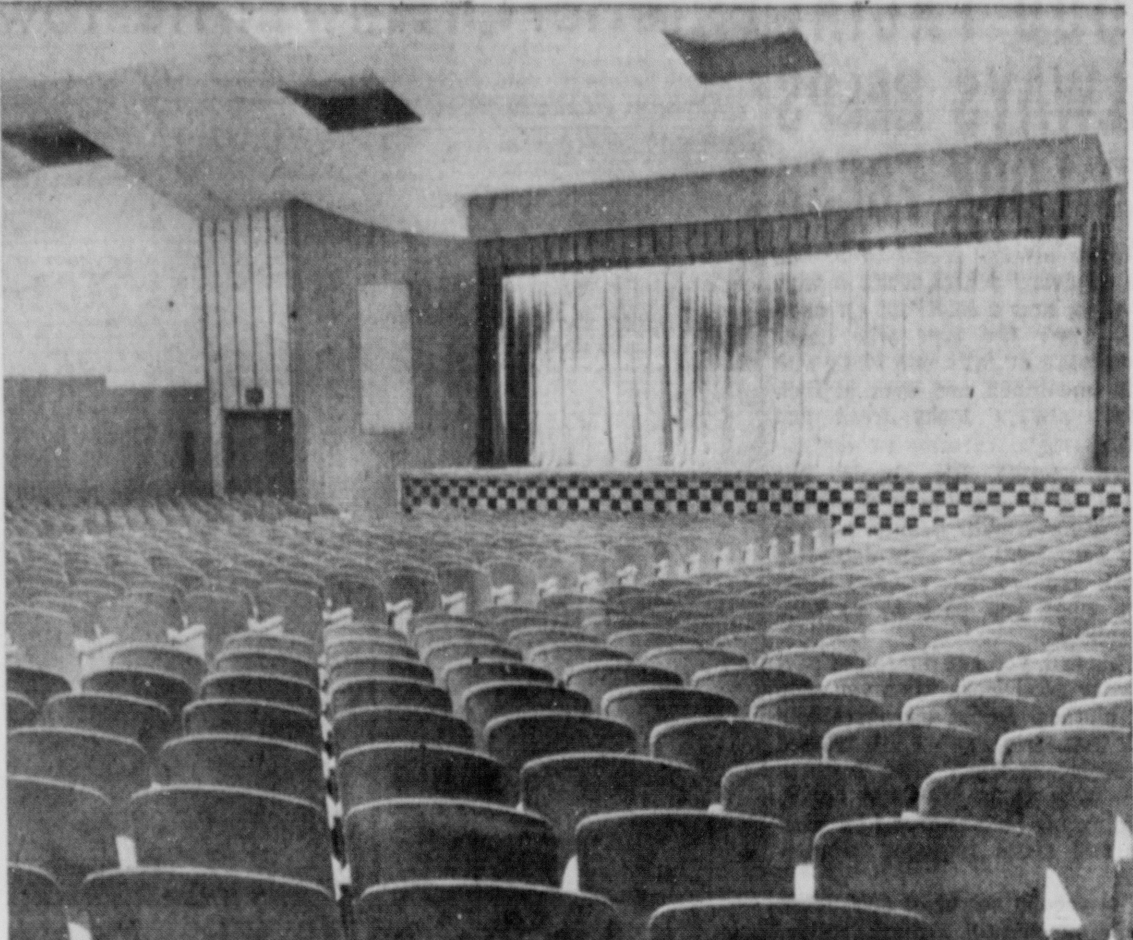

Stripping and changing bed linens — 5.5 calories per minute. Simply tidying beds — about 4. Cleaning windows — 3.5 to 4. Scrubbing floors on hands and knees — 7.

Putting washing through a mangle — up to 7. Carrying out and hanging up wash — 4.5 to 5; and more if the wash is carried up steps. Washing lingerie by hand — 3. Ironing — 4.2 per minute.

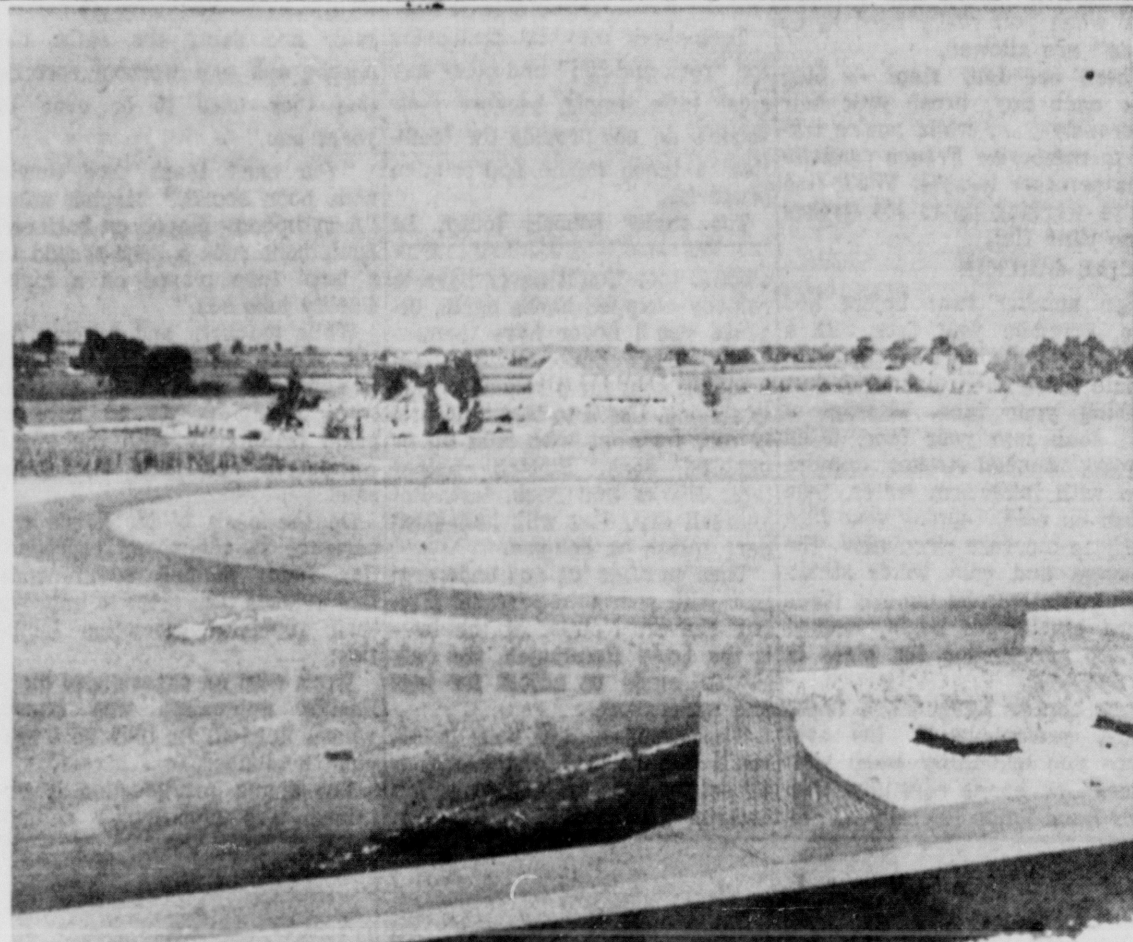

CUT COST SHARPLY

Automatic machines cut the cost sharply.

Gardening — up to 5 or 6, particularly with digging and

The 810-seat auditorium has long been needed by the Littlestown school system. An electronic pipe organ and a projection booth are two features. The deep stage which has four curtains will provide plenty of space for high school play productions. To the right rear of the stage are rolling doors which will enable easy movement of things in and out of the room.

A view of the school grounds from atop the building showing the first track ever built in the Littlestown jointure. This area will be used by the physical education classes. It has been learned that in the future, a field house is planned.

spading. Sitting and sewing — 1.5 to 2. Walking up and down stairs — 4 to 6, with 1 or 2 more added in carrying a 20 to 30-pound child. Walking to and from the shopping area costs 2.5 to 4, at a walking speed of 2 to 3 miles per hour. Lugging 15 to 20 pounds of groceries adds another calorie per minute. Dressing and undressing costs 2.5 calories per minute, showering about 4.2, and vigorous showering, with more bending and movement, sends it up to 5 or 6. "At the Work Classification Clinic of the Cleveland Area Health

Society, this awareness of the high energy cost of housewifery has influenced the vocational counseling of the woman with heart trouble," Dr. Hellerstein says.

SECRETARIAL JOB

"At times it has been easier for the cardiac woman to obtain a secretarial job to obtain sufficient funds to pay for someone else to fulfill the household chores."

"Many husbands convalescing from a heart attack have recognized the high energy cost of house work, particularly when they perform some of the household chores while their wives are enjoying the less energy consuming duties of clerk or secretary. Small wonder the husbands are happy to return to work, for this (and other) reasons!"

The picture of hard work of housewifery "does not apply to all housewives," Dr. Hellerstein stresses.

"The childless housewife who dwells in a small apartment with elevator, who does not do her own house cleaning, laundry or shopping, may expend her maximum energy walking to and from the refrigerator, telephone or television set, where she so often will accumulate rather than dissipate calories — of course to her own calories in recreation.

Capable Administrators Run Joint School System

The three top administrators in the Littlestown Joint School System have served a total of 88 years as educators at the school. All are natives of the borough or surrounding townships and are known to all who live in the vicinity.

Supervising Principal Paul E. King, Littlestown R. 1, was born in Germany Twp., and has lived there all his life. He graduated from Littlestown High School and later received his bachelor's degree from Gettysburg College in 1922. While in college and immediately after graduation, he taught for some time in rural schools in Germany Twp.

In 1922 he was hired by the Littlestown schools to teach biological sciences and language, and two years later was promoted to the high school principal job. Professor King has done graduate work at the University of Pennsylvania.

FRANK E. BASEHOAR

Frank E. Basehoar, 59 Patrick Ave., grew up on a farm in Mt. Joy Twp., and graduated from Littlestown High School in 1935. He taught in Berwick Twp. for many years and, after he was discharged from the Army in 1945, he resumed teaching at the Hoffman Home.

In 1949, he was elected a teacher of social studies and civics at Littlestown, but relinquished these responsibilities when he was made high school principal in 1956. Basehoar also presently serves as advisor of the student council.

Principal Basehoar received his Bachelor of Art's degree from Catawba College in 1937 and received his master's degree in education from Columbia University.

LLOYD STAVELY

Lloyd Stavelly, 39 Crouse Park, has served as administrative assistant to the supervising principal since 1949. A native of Littlestown, he graduated from the high school in 1912, attended Millersville State College for one term and received an A.B. degree from Gettysburg College in 1924. In 1934 Gettysburg College awarded him a Master of Arts Degree.

He also has attended Pennsylvania State University.

Stavelly started teaching in rural schools in Germany and Conewago Twp. After six years, he began teaching social studies in 1924. He still teaches social studies and is advisor of the school newspaper, The Littlestown Echo.

Stavelly has been certified by the state department of education as an elementary and high school teacher, a high school principal and a supervising principal.

WOMEN SHOULD DRESS TO SUIT OWN FIGURES

NEW YORK (AP) — Jean Louis is a handsome couture designer who knows so much about women's figures he feels protective.

He designs for some of the world's most elegant women, but he believes that the first step in becoming well dressed is to be an individual. "Wear what you look best in," he insists.

"You shouldn't try to copy fashions you see a favorite actress wear. It isn't designed for you and if you feel embarrassed in your clothes you can't look good in them."

CAN'T COPY

"You can't copy anyone else and be a star — and that goes for all women, not just actresses."

Jean Louis has had years of experience with movie stars — for 16 years he has outfitted most of the important stars; his latest is Marilyn Monroe in "The Misfits."

Before that he was a mainstay of Hattie Carnegie in New York, where his first customer was Irene Dunne. When Hollywood hired him to help bring fashion elegance to the screen, his first star was Irene Dunne.

Marlene Dietrich is also one

of his special pets, and his transparent dresses for her ("they don't really show anything") have made international news.

Now he designs two lines a year for Ben Reig one of New York's couture houses.

Jean Louis is strong for hats. "Men like them," he says. "You can always catch a man's eye with a hat. In the '30s everyone wore hats; then there was bareheaded period. Now they're coming back, because women realize that one minute after you come out of the hairdresser's you can be a mess. But real hats — hats that cover your head — hide the hair, frame your face and give you a well dressed look."

NO ILLUSIONS

From his long experience in Hollywood, he has no illusions that every actress has a perfect figure.

If the star isn't particularly

5-Section Health Suite Is Feature Of New School

Mrs. Brenda B. Walker, nurse for the Littlestown Joint School System, will be one of the many faculty personnel who is overjoyed at the new junior-senior high school building which will be dedicated in ceremonies Sunday afternoon.

Moving from a short, narrow room into a five-section health

shapely and the scene calls for her in a bathing suit, he explains, they take a faraway shot of a beautiful girl in a bathing suit, and then do a closeup of the star.

If you worry because you don't look as glamorous in your slip as the actresses do in those bedroom scenes, it's not your fault. The filmed bras and slips and nightgowns are built up and zippered to fit snugly like a dress, he says.

Furthermore: "The young starlets are impossible," he says indignantly. "They know nothing about dressing. Their idea of a wardrobe is sport clothes, a very tight jazzy dress — open or closed but very short, and with the bosom out to here."

His advice for an 18-year-old starlet is to learn to walk, to keep well groomed, and dress very simply.

About Joan Crawford, whom he admires very much, he recalls: "I said when I first saw Joan Crawford that when I designed for her, I'd first get rid of those shoulder pads. Then I learned they weren't shoulder pads. They were Joan Crawford."

suite may present Mrs. Walker with an agreeable question of how she plans to utilize the suite, after experiencing a need for space for 16 years in the old building.

The most notable improvement in the new quarters is a private office situated away from the hustle and bustle of the classrooms and hallways. To enter into the one must pass through a narrow hallway which opens into an area sufficient to house a large desk and cabinets for records.

NEW FACILITIES

Immediately behind her office are two small private rooms, each containing a cot, for student use when one becomes ill during school hours. Left of the nurse headquarters is an area for use by a doctor. Here is a reclining table-bed, available for emergency treatment, or use as a third cot for an ill person. Included in the room is area for general examinations, such as weight, height,

Health

So it's baby's teething time? Most infants get teeth easily, But mothers worry about it. They blame much on teething. Diarrhea, convulsions, fever, Coughs and constipation, too. Teething is a natural process. Some discomfort is expected. Babies get teeth at six months. Some before that, others later. Proper diet aids in teething. Mothers needn't fret about it.

etc. Adjacent to the doctor's room is a department that probably will be for dental examinations since the room contains a dental chair.

A special room, which vacant right now, will be used for audiometer tests, an examination to

test the hearing of a student.

Mrs. Walker was born in Hanover and graduated from Littlestown High School. She earned her registered nurse degree from the Church Home and Hospital in Baltimore. Mrs. Walker has doing

graduate work at Gettysburg and Pennsylvania State University.

"I think it will be wonderful to work in an area where there are adequate facilities and equipment to suit our purposes," she said.

CONSOLE UNIT LANGUAGE LAB AIDS STUDENT

Foreign language laboratories in high schools of Pennsylvania are a relatively new concept and educators at Littlestown foresaw the need for such a system.

Included among the many new facilities at the Littlestown Junior-Senior High School building which will be dedicated Sunday is a console system designed to help foreign language students increase their techniques and skills in the language arts.

Located on the second floor, the language classroom will seat 34 students while to the rear of the room are six individual booths for listening, recording and conversing in any desired language.

The teacher's desk is situated to the front while immediately beside her desk is the console unit. This machine will enable the instructor to pipe one of three lessons to students who are sitting in the booths. Two lessons will be available on tape while a third is available by playing a record. The record player can broadcast to students in the room or to individuals in the booth, while the tapes, with the easier or harder lessons, may be piped to one or more students in the listening booths. Controls in the console at the instructor's desk enable her to converse, monitor or record a student's voice in the foreign language. This also may be done individually, in a group, or with several selected students from any of the booths.

The students' booth itself has two control buttons for volume; a button for signaling the instructor when the student wishes to talk, ear phones and a microphone which extends from the left side of the booth.

ON HAND FOR SCHOOL

Knits and leathers combine in a fashion handshake for some exciting glove styles—in bright colors. Cotton crochet, wool knits, wool jersey and angora too, go hand in hand with leather palms and leather trim in spirited colors and glove styles.

Smart coats are choosing camel hair coats that line up in 100 per cent camel hair or camel hair and wool blends. The popular boy coat is updated this season with narrow lapels and a slimmer body line. New too, are several camel hair brief coats finished with plaid linings, stand-up band collars and belted sleeves.

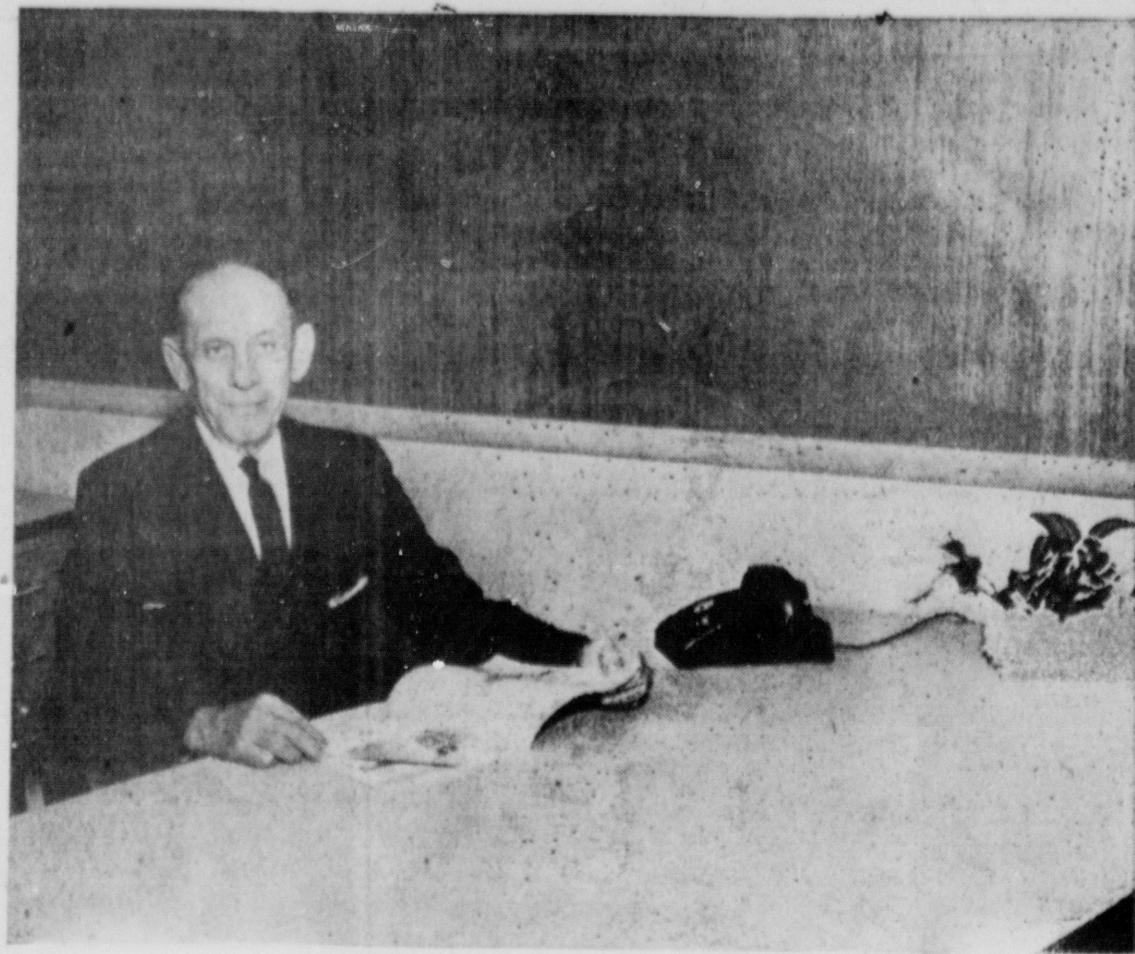

It is what is inside that counts this year in rainwear. On the inside of luxury are fur and furry linings turning the classic poplin coat or cape into an elegant all-weather fashion.

CHILDREN WHO TAKE TO MUSIC GO FURTHER

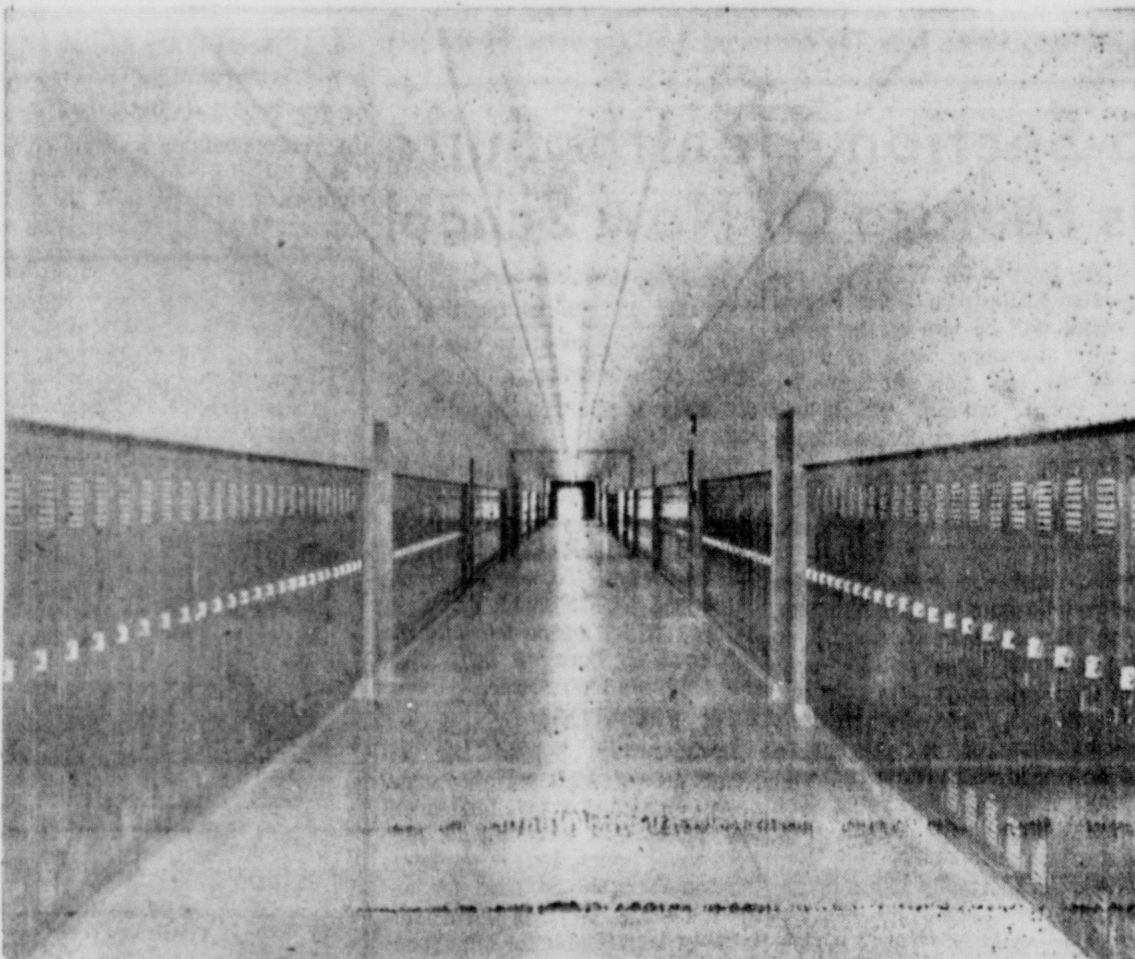

Children who make the most of their musical experiences usually make the most of themselves. Not only do they excel in cultural and personality growth, but musical youngsters generally top non-musical youngsters in academic achievement, class offices held and in individual sports, according to the American Music Conference.

More than 9.5 million youngsters will be involved in musical adventures this fall. To increase these children's chances of continuing their valuable musical experiences, parents can make these major contributions:

Guide the child's selection of an instrument. Let the child's interest be the key to instrument selection. A child who enjoys being the life of the party may find the so-called solo instruments—ac-

dion, guitar, ukulele or piano—more suited to his personality; others may want to play any one of a number of symphony instruments. For professional assistance, consult a local music dealer, music teacher or school band director.

PROPER TEACHER

Select the proper teacher. A teacher who can instill a love of music and who has the ability to make music-learning fun will increase the students' musical chances for success.

Give your child encouragement. One well-placed compliment can do more good than a dozen scoldings. Show an active interest in your child's progress. Take time to listen to practice sessions and show him you love music, too. (Special tip: schedule practices early in the morning, when there are no conflicts with other activities. Your child will consider his music a "plus," not an activity that replaces another favorite pastime.)

Librarian Donald Feaser is well pleased with the extra space, ventilation, seating arrangements and lighting in the new library at the new high school. To the left rear is the librarian's office and beside it is a book-repair room. On the right is the check-out desk which will at times be staffed by students. There are two entrances to the library which is three steps above the regular second-floor level.

WITCH'S MART STILL POPULAR

PORT ELIZABETH, South Africa (AP) — The hottest item on the South African witchcraft market is a medicine made up of a small piece of wood, a porcupine quill and a section of a thick,

green, very smelly plant. It guarantees its bearer immunity from arrest. That's the word from Mrs. P. Barnard, an herbalist who keeps a small shop stocked with a strange assortment of herbs, bulbs, roots, stones, snakeskins and colorful liquids. Witchcraft, muti (medicine) and charms are by no means dead in South Africa. Hundreds

of Africans flock to herbalists for medicine to drive away evil spirits, bring back loved ones — and keep the cops away. Some of the more popular ones listed by Mrs. Barnard, include: Vimbela, a white salve that smokes when rubbed into the skin. "It protects you against witchcraft. Some people rub it in their heads. When they use too much their hair falls out."

WASH, WEAR WARDROBES ARE FAVORED

Simplicity is for little girls—at least that's the fashion news for back to school.

With this season's styling emphasis on simple lines—the gored or flared skirt, the box pleats with loose overblouse, and, of course, the always-popular gathers, keeping outfits neat and fresh is easier than ever.

Combine this simple styling with wash-and-wear fabrics, clothes all but "launder themselves".

Look for "wash-and-wear" in all back-to-school wardrobe buying. In addition to the now-familiar fabrics, many new ones, as well as new patterns and new bright colors are available.

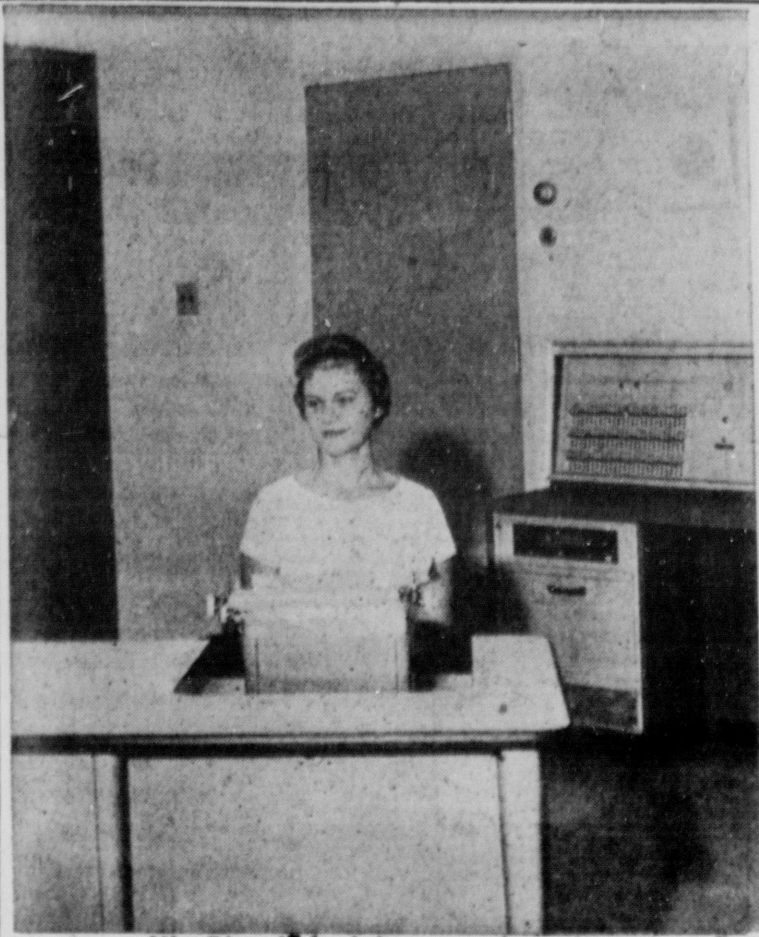

Looking over these new fabrics, new brilliant colors and variegated patterns, may cause wonder about laundering. The Maytag Home Service department advises this is no problem — if you follow the correct procedure.

Wash - and - wear garments should be laundered frequently. Before laundering, pre-treat heavily soiled areas by rubbing lightly with a liquid all-purpose detergent. Ordinarily select either a cold water wash and rinse with regular agitation and spin or warm water wash and cold water rinse, regular agitation and spin speed, for resin-treated cottons or heavily-soiled synthetics.

However, with any of the new bright-colored fabrics you'll want to use the cold water formula to avoid any loss of color or fading. Pre-dissolve granular detergent or choose a liquid laundry detergent for cold water washing. A fabric conditioner added to the final rinse will control static electricity in man-made fibers.

Wash five to six minutes. Using the wash-and-wear setting, dryer-dry for 10 to 15 minutes. When the clothing is dry, remove immediately and hang on hangers.

The Maytag Home Service department assures this procedure will give satisfactory results with any wash-and-wear fabric that is

Check Children's Health Well Ahead Of School

The first assignment for parents, as school opening nears, is checking the youngsters' well-being.

Is the boy or girl physically fit to face the challenges of the school year ahead?

Now's the time to check eyes, ears, teeth and a child's total health.

How about eyes? Every child should have an eye test once a year. If your child has had trouble in school, make very sure you get both his vision and hearing checked. No child can learn well if he cannot see the blackboard or hear the teacher clearly.

How about weight and nutrition? Has your youngster gained enough and not too much? Maybe you need to plan his diet more

carefully — too many snacks and not enough muscle building staples. Maybe it is a little extra sleep he needs.

Don't forget the child's teeth. Plan an early visit to the dentist; have needed dental work done well ahead of fall.

Be sure that the youngster has all essential preventative vaccine shots. Check with the doctor on what's new and necessary.

Consider the child's posture, too. Are his muscles firm and strong? His coloring good?

Don't overlook securing professional help for the child who sucks his thumb, wets his bed, or dawdles over food and chores. Some of these problems are emotional, others have a physical origin.

Plan appointments for each of the children in the family well in advance of school opening. Be sure ample time is available for

Plans Available For Building Economical, Efficient Schools

A colorful, new booklet showing how schools can be designed to meet a variety of site and functional requirements has been released by the National Lumber Manufacturers Association as part of a newly available, complete school design program.

Entitled "Blueprint For Better Schools," the booklet features modern methods used to produce an esthetic, economical, efficient structure. The designs were developed by Cooper and Auerbach, A.L.A., of Washington, D.C.

Three basic junior high school concept designs are presented: a compact structure for a level building site, a hillside school intended for rolling or hilly terrain, and a pavilion unit readily adaptable for random campus planning.

Besides including isometric renderings, site plans, sketches, and detail drawings, "Blueprint For Better Schools" illustrates a wide variety of exterior siding, interior panelings, and door and window designs.

The booklet also shows flat, sloping, and curved roofs supported by beam-and-purlin and beam-and-rafter systems, laminated wood bents, laminated beams, bow-string trusses, and V-arches.

In the compact school plan all elements are grouped tightly, with classrooms arranged around a

core of service facilities. Each classroom has separate entrance and exit doors to the interior corridor; additional doors open out to individual patios at grade level. This type of planning permits the structure to be emptied in minimum time in an emergency.

The school is intended to have an enrollment of 360, with each of its classrooms designed for 30 students. There are special rooms for art and science activities, together with a library and an auditorium.

torium, which also serves as a gym and lunchroom.

The school is divided into four separately enclosed areas, which increases its life safety, and includes exits at grade from each level of the two-story downhill wing. This building is designed for approximately 540 students. 30 per classroom, and has all of the compact school's special rooms, in addition to a health center, separate gym and cafeteria.

The pavilion school concept includes six classrooms and a centrally-located multipurpose area and is designed primarily for those communities where population is expanding rapidly and where relatively small increments of additional facilities are needed.

The pavilion units can be built singly as need for additional space arises, or several units can be built at once in a cluster of unconnected or attached units, with or without a core building to house administrative facilities, athletic, cafeteria, and similar services. This design is particularly adaptable to imaginative site planning.

Single copies of the "Blueprint For Better Schools" booklet are available without charge from the Wood Information Center, National Lumber Manufacturers Association, 1319 18th Street, N.W., Washington 6, D. C. Also available on request are detailed structural data.

Encourage Youngsters In Right Dress

Children, no matter what their age, are never too young to be properly dressed for school. A little girl, in too many ruffles or frills, is as much "out of her class" as though her lessons were not up to average class standards. Thus a boy's outfit that's just right for the playground, however clean and fresh it may be — is "off base" for the classroom.

Parents can help their children develop this important sense of knowing what to wear, and when. Don't imply that his choice of blue jeans is a disgrace. They are sturdy, comfortable, ideal for play. On the other hand, don't allow be-ruffled, party-type dresses to go to school.

Avoid buying a size or two larger than is needed. It's not economy, it's waste. The child looks awkward and ungainly and all the joy of having something new is overshadowed because the child is well aware that he looks absurd.

Buy the correct size, then take advantage of the "grow" features which most clothes have today. Look for deep hems, wide seams let-down room on cuffs — these extras in ready-made clothing, are plus-features that help apparel "grow" with the normally-growing child.

GIRLS SHOULD PLAN AHEAD FOR WARDROBE

The first door the smart gal opens when campus bells get set to ring—is the door to her favorite clothing store! And, she's armed with a comprehensive list of needs.

Planning a wardrobe before setting foot in a store is especially important if the college girl is going to live in a dormitory. Closets in dorms are usually quite small.

Pre-planning is a budget-saver, too. The fall clothes are so appealing, the coed is inclined to buy more than she really has need for.

In planning ahead, a gal can provide for interchangeable separates, color coordination and versatility—giving her more outfits with fewer clothes.

A frosh should check current fashion magazines that are slanted to college and career girls. Too often the recent high school graduate feels that in order to prove she's no longer a girl she must "dress up."

Actually, since she is now a young woman, she must "dress down." This means young adult styling that is simple: a very basic dress with a minimum of accessories is an example.

Slinky gowns are "out," at least at most colleges. Fur coats are definitely not necessary, although fake fur jackets are popular.

For wear to classes, choose a rugged coat for lots of wear and rough treatment. Few college classrooms provide coatrooms, so often your coat will be draped over your chair.

NEAT SKIRTS
Under the coat, for classes, you can't go wrong with neat skirts, sweaters and blouses, or classic tailored dresses.

Check your school on classroom footwear as it varies from flats with anklets, to flats with hose, to high heels with hose. If the latter is the rule, be sure to choose tailored pumps, preferably with a medium or "little" heel.

One or two cocktail type dresses

The completely modern language laboratory in the new school will provide students with many fringe benefits in addition to reading and studying from a textbook. Shown in the rear are the private booths where students may record their voices in a foreign language, converse with the instructor at the front of the room, or listen to a record in a foreign language.

NURSES

MISS BROWN

MISS BOYD

Miss Carolyn Ann Brown, daughter of Mr. and Mrs. Preston D. Brown, 83, Crouse Park, and Miss Constance Fay Boyd, daughter of Mr. and Mrs. Albert D. Boyd, Prince St., were members of the class of 41 nurses graduated from the York Hospital School of Nursing Monday evening. Each graduate receive a diploma and pin. Miss Brown was the recipient of the William S. Grove Medical Nursing Award. Miss Boyd and Miss Brown are cousins. They were graduated from Littlestown High School in 1958.

CLERICAL TEAM

During the summer of 1959, Rev. Motter was a member of the team of 10 American clergymen selected by the National Council of Churches for its Interchange Preaching Program with the British Council of Churches. He then preached in England, Scotland and Holland on an itinerary which also included the Scandinavian countries.

He has taught at Hamline University, St. Paul; Chicago Lutheran Theological Seminary, Maywood, Ill., and the Bethany Biblical Seminary, Chicago.

A former managing editor of "The Pulpit" magazine, he has edited three books, the most recent being "Great Preaching Today" (Harper, 1955) and "Preaching the Resurrection" (Muhlenberg, 1959). Among other interdenominational activities, he has been a member of the Broadcasting and Film Commission and of the Division of Christian Education of the National Council of Churches.

PAUL KING PRESIDES

Supervising Principal Paul E. King will preside during the program. Miss Jocelyn S. Zimmerman, supervisor of the elementary music in the school system, will present an organ recital beginning at 1:30 p.m.

After the invocation by Rev. Nelson Brown, of York; soprano Marie Budde, of Littlestown, will render "Bless the Corners of This School," by Rasley, followed by the introduction of guests by Lloyd E. Crouse, chairman of the building committee.

Wilbur A. Bankert, president of the Littlestown Joint School Authority, will give a brief statement and present the building to high school Principal Frank E. Basehor.

CHORAL SELECTION

After an acknowledgment of gifts, the high school chorus will sing a selection led by Robert C. Musser, director.

The dedication of the building and facilities by Dr. Herbert E. Bryan, Pennsylvania Department of Instruction, Harrisburg, will follow Rev. Motter's address.

Dale W. Stary, president of the joint board of education, will give a few remarks and the program will close with the benediction by Rev. Richard Shanebrook, of York, and the "Star Spangled Banner."

Littlestown

LITTLESTOWN — The Alpha Fire Company answered an alarm at 4:55 p.m. Thursday to a brush fire at 160 W. King St.

Girl Scout leaders have been informed that there will be an open house at Camp Happy Valley, near Fairfield, September 10 at 3 p.m. with a special dedication, mortgage burning, house blessing. Families are invited to attend and take a picnic supper. This will be the last function before the Adams County Girl Scouts become a part of the new Penn Laurel Council. The Adams County office will close September 30 and become part of the new council as of October 18 when a charter night will be held at the Student Union Building at Gettysburg College.

Eleven members of Explorer Post 84 have returned from a trip to Camp Hatteras, N. C. The group left Saturday at 4 a.m. and returned at 4 a.m. Thursday morning. The trip was made by James Bowserow, James Long, Bernard Weaver, James Krog, Wayne Miller, Ronald Benner, Steven Study, Paul Bowman, Ronald Brown, Charles Mummert, post president, and Howard Bowman, post committee member.

The Explorers did their own cooking and camped at Oregon Inlet. A highlight of the trip was a visit to the Wright Brothers Museum at Kitty Hawk, N. C. They also fished in the Atlantic Ocean.

Commander Beaven F. Hanlon presided at the semi-monthly meeting of the Ocker-Snyder Post of Veterans of Foreign Wars Friday evening at the post home. Norman Sentz and Elmer W. M. Dutera were appointed in charge of refreshments at the next meeting September 14 at 8 p.m. Refreshments were served by Lloyd T. Bortner and Robert W. Gouker.

Schoolgirl Needs Help With Grooming Regime

If she wants to be voted "the girl most likely to succeed," and to be accepted and liked by her friends, every teenager needs to learn good personal grooming habits.

Encourage your daughter's respect for herself by explaining the why's of caring for clothes, hair and personal appearance. Jeanne Bryant, beauty expert for Dial research laboratories, suggests you work together to set up a daily grooming program that includes:

Washing face three times a day; using a soap with a germicidal additive that helps protect against blemish-causing bacteria. Showering or bathing — also with a mild deodorant soap that removes odor-causing bacteria. Brushing teeth, brushing hair and cleaning nails. Examining clothes to be worn the next day, being sure they are clean and in good condition.

Checking the appearance of her hair, face and clothing.

A teenager gets real satisfaction out of a "room of her own" — a room that reflects her personality, interests and talents, and affords the privacy young girls need.

Surprisingly enough, a girl's good grooming schedule can be a blueprint for keeping her room in order.

Room cleaning should be a weekly project. Help her understand that cleaning her room is more than just cleaning; it is helping to make her home the kind of place that her friends enjoy visiting.

This period of adolescence offers a fine opportunity to help a girl form the habits which will make her a lovelier woman — and she will be thankful for it later.

Bitter Reaction Greeted Red Decision To Resume Tests During Ban Parley

By PATRICK MASSEY
LONDON (AP)—The Soviet Union's decision to resume nuclear tests produced stunned and bitter reactions today.

A spokesman for the British Foreign Office said that if the Kremlin carries out its threat, "We shall be astonished at such a retrograde step."

Noting that no warning of the move had appeared at Wednesday's session of the Geneva test ban talks, the spokesman said: "It is ridiculous to put the blame on the Western powers."

FRONT PAGE NEWS

Editorial comment in Europe's morning papers was sparse because of the late hour of the announcement. But the news leaped to the top of most front pages.

The chief U.S. delegate to the Geneva talks, Arthur H. Dean, said the Soviet Union had "given clear evidence it is no longer interested in a test ban treaty."

"Its statement that it will accept a test ban treaty after general and complete disarmament is, of course, a fraud," said Dean as he prepared to return to Washington.

SUSPEND CONFERENCE

In Geneva, the U.S. and British delegations announced that the next meeting of the test ban conference, originally set for Friday, has been suspended until further notice.

The chief British delegate, David Ormsby-Gore, also is returning to his capital, but both he and Dean were leaving deputies behind.

hind. A Soviet spokesman said the Soviet delegate, Semyon K. Tsarapkin, who declined to make any statement to newsmen, does not plan to leave Geneva.

Britain's foreign secretary, Lord Home, returned to London from vacation to begin studying the Soviet announcement. Prime Minister Harold Macmillan continues his vacation in Scotland, Home and Macmillan were expected to get in touch by telephone to discuss whether Britain would also resume nuclear tests, which she had suspended along with the United States during the Geneva negotiations.

SHOCKING DECISION
In a rare move, Home personally issued a statement branding the Soviet decision "shocking, contentious and cynical." He accused the Soviets of never negotiating seriously with the Americans and British on a test ban.

France accused the Soviet Union of trying to browbeat the West into submission on Berlin and Germany with the resumption of nuclear tests. A Foreign Ministry official said the Soviet Union is following a "policy of intimidation."

A French official said Moscow's contention that it had to resume testing because of France's testing of atomic weapons was "a real defiance of good sense and truth." One official said President Charles de Gaulle himself had said the French program was only a "modest" one.

SERIOUS REGRETS
The Dutch government expressed "serious regrets" at the Soviet decision and said "world opinion will be deeply shocked."

The Express, only British morning paper to comment, said a further spurt in the nuclear arms race is now inevitable.

Strongest initial editorial reaction elsewhere in Europe came from Stockholm's Aftonbladet, a paper owned by labor unions which frequently reflects the views of the Socialist government.

Aftonbladet said: "The Russian tests is ruthless and difficult to understand. It seems to be a political misjudgment of gigantic proportions to resume the tests at this time. This is hypocrisy beyond all boundaries."

Cafe Pair Must Face Drug Count

LANCASTER, Pa. (AP)—A cafe owner and one of his waitresses, accused of possession and sale of dangerous drugs, have been ordered held on \$2,500 bond each for a hearing Sept. 25.

State Police Wednesday said 175 amphetamine tablets (bennies) were found in a desk at Dan's cafe at nearby Gap R. 2. The proprietor, Daniel V. Dellarova, 45, has been charged with possession, and the waitress, Janet Hilton, 28, of Coatesville has been charged with four counts of possession and sale.

Cholesterol is dangerous for overweight men. This is a fatty substance that forms in the arteries, said to cause heart attacks. Answer to the problem, say nutritional experts, is diet high in protein and low in saturated fats. To keep cholesterol down, restrict beef, lamb, pork, increase fish, veal and fowl.

understand. It seems to be a political misjudgment of gigantic proportions to resume the tests at this time. This is hypocrisy beyond all boundaries."

SOVIET CYNICISM
The Paris morning paper Aurore commented on "the cynicism which marks Soviet policies."

In Japan, only nation ever hit by an atomic attack, the pro-Western government issued a statement saying that the Soviet Union "should take into consideration the great effect on the future of mankind that its decision will have, and it should cooperate with other countries in reaching an agreement to ban nuclear weapons."

The ruling Liberal-Democratic party noted that the announcement said the Soviet government was compelled to resume tests "because of the pressure of international tension centering on Berlin. But we Japanese well know who brought about the Berlin crisis."

Glasses Can Be Attractive Accessory For Young Fry

The youngster who must wear eyeglasses today can look just as attractive and be just as active as the child with perfect vision.

With so many frame styles to choose from, there is one to flatter every child. And, for the boy who wants to enter active sports, there are non-breakable glasses.

Fashion has greatly influenced the makers of eyeglass frames. The color spectrum is wide; shapes are myriad, and all sorts of trims are used.

"Miracle" materials have enabled designers to create lightweight frames that are sturdy too. Plastic, aluminum, gold and countless other materials are available.

Although more flattering glasses have made eyewear most acceptable, still many people neglect to get their eyes examined regularly.

It is especially important to have a child's eyes examined

"Untenable" Berlin Tag By President Represents Real Military Assessment

By ELTON C. FAY
AP Military Affairs Writer
WASHINGTON (AP)—President Kennedy's statement that West Berlin would be "untenable" if it were subjected to a direct attack by the Soviet Union "obviously reflects the coldly realistic assessment of his top military advisers."

The chief executive, in his news conference Wednesday, went on to say that it is hoped Soviet awareness of U.S. determination to defend West Berlin will prevent Soviet attack.

He termed the few thousand U.S. troops in the city as "hostage to that intent."

once a year as they may not realize that printing on the blackboard should not look fuzzy.

Early detection of seeing difficulties is important in preventing more serious eye strain. In young children, mild forms of eye trouble can sometimes be corrected without prescribing eyeglasses.

Oculists can correct some types of crossed eyes, for example. And therapy is also used to restore binocular skill so a child sees with both eyes, not just one.

Medical authorities recommend an eye examination when a child is 3 or 4 years old, and earlier if there are obvious problems. Thereafter, regular visits should be to an oculist or optometrist.

EARLIER WORDS
Kennedy's comments were different from views expressed in his message to the nation on July 25.

In that speech the President said: "I hear it said that West Berlin is militarily untenable—and so was Bastogne and so, in fact, was Stalingrad. Any dangerous spot tenable if men—brave men—will make it so."

The U.S. Army believes that it has about 6,500 brave men in West Berlin, part of the total of slightly over 13,000 American, British and French forces garrisoned the free part of the old German capital.

ISOLATED ARENA

Such a force, in an isolated arena 110 miles from the main Allied forces in West Germany, could not be expected to hold out against the massive weight of manpower the Soviet Union could bring to bear. There are estimates that 35 to 40 Soviet divisions are located in adjacent European Russian territory.

sions are located in adjacent European Russian territory.

Kennedy's mention of direct attack by "the Soviet Union" was interesting in that he made no reference to East German Communist military forces. Some Bonn government officials say the East German army consists of six divisions (which they consider unreliable from the Soviet viewpoint), plus police-type units and an air force.

The defenders of West Berlin would have some basic advantages, even if temporary, including the military precept that defense is easier than attack.

CITY-TYPE LIGHTING

Defense of West Berlin would be city-type fighting—unless of course the Communists wanted to destroy West Berlin by all-out air bombardment.

In city-type fighting, some of the firepower effectiveness of modern Soviet arms could be negated, the situation coming nearer to being equalized until overwhelming masses of Soviet manpower poured in.

Could the Berlin garrison be reinforced and resupplied after it came under attack?

SUPPLY LINES

Unless the Western forces wanted to shoot their way through, the closing of the highway and rail line would be simple.

Shutting off the air corridor would be more difficult, involving a decision by the Communists to start shooting down planes. This would mean fighter cover for transport planes. And fighter cover would mean more shooting.

Which would take the whole matter to the threshold of general war.
